CALLA LILY Calla lilies are not true lilies but are clump forming plants with large arrow shaped leaves. They are used as both houseplants and seasonal outdoor bedding plants. Grow best in full sun.

elliotiana Commonly called the golden calla lily.

'Morning Queen' Orange flowers flamed with yellow. Dark green foliage with silvery spots. H 14-22"

'Yellow Queen' Huge golden flowers, 3-4" wide, with spotted foliage. The most intense and robust yellow Calla. H 18"

rehmanni Compact plants with many flowers over a long period. Strong growers with plain green leaves, some have a few spots.

'Crystal Clear' Pure white blooms and clear green lanceolate foliage. H 14-22"

'Garnet Glow' Dark pink Calla with a slightly darker eye. Great in the garden and also lasts a long time in a vase. H 16"

'Night Life' This productive variety produces numerous dark purple, almost black flowers on green leaves. H 12-18"

'Red Alert' Vibrant orange-red flowers. Dark green heart shaped foliage with silvery speckles. H 20".

CAMPANULA medium (Canterbury Bells Cup and Saucer Plant) A favorite in your grandmother's garden, these plants produce eye catching blooms in summer. Technically a biennial, we seed these early enough in the winter to flower this season in your garden. Full sun to light shade.

'Appeal Deep Blue' A perfect potted plant! Naturally compact habit, tough, long lasting flowers and exceptional heat tolerance. 8".

'Champion Mix' Large single flowers on tall stems. Without a doubt the best selection for cut flowers. 24-36"

CANNA Big, tropical plants with bold flowers and richly colored foliage. These definitely make a statement and add a sense of lushness to your garden. They need lots of water, sun, and heat. They work well in containers. Dig up the rhizomes in the fall, store, and replant in spring.

'Blueberry Sparkler' Slender purple-green foliage with medium pink flowers. 4-6 "

Annuals

'Cannasol Happy Carmen' Bright red self cleaning flowers green foliage. H 20-24". Perfect size for containers!

'Cannasol Happy Emily' Soft yellow flowers with lovely orange marks and dark green foliage. Bloom height 20-24". Perfect size for containers!

'Emerald Sunset' This variety is the non-variegated form of *Canna* 'Pretoria'. It has broad green leaves and vivid orange flowers. H 4-6'

generalis 'Cannova Bronze Orange' Earliest flowering of Cannas with vivid red blooms that are complemented by dark foliage. H 30-48"

generalis 'Cannova Mango' [NEW] A semi dwarf *Canna* with green foliage with large pink flowers that are light on the inside and darker edged around the rim of each petal. H 3-4'

'Intrigue' Dark almost black foliage with coral flowers. H 5-6'

'Island Madeira' [NEW] Growing to 3 feet, Madeira has bright green foliage topped by brilliant red flowers delicately edged in glowing yellow.

'Island Tenerife' Growing to 3 feet, Tenerife has green foliage and bright yellow flowers generously spotted and speckled with orange.

'Louis Coutin' Deep brown foliage with yellow to salmon flowers. H 3-4'

'Phasion' (Tropicana) Dark purple leaves vividly variegated in bright yellow, orange and red. Bright orange flowers. H 5-7'.

'Pink Sunburst' A very showy dwarf *Canna*. Large pink flowers above dark green foliage striped with colors of the sun; red, pink, bronze, and gold. H 18-24"

'Red Velvet' [NEW] Striking red blossoms that emerge from the center of attractive chocolate and olive green leaves with crisp maroon margins. Grows 3'.

'South Pacific Scarlet' [NEW] Stunning red-orange plumes: a continuous show of color from early summer well into fall. H 18-36"

'Toucan Coral' Blooming early and continuously all summer with soft coral pink flowers and mid-green leaves. H 30-48"

CASTOR BEAN *ricinus communis* 'Red Spires' Grown for its huge showy tropical foliage and decorative seed heads, it makes a pronounced presence in the garden. The large leaves are a deep burgundy red. All parts, but especially the beans and sap, are poisonous. Quick growing, creating an instant tropical effect. Full to part sun. 6-8'

CENTAUREA Old-fashioned cottage garden plant with frilly flowers on upright, narrow stems. A nice cut flower. Lures butterflies. Prefers well-drained soil and sun.

cyanus 'Blue Boy' (Bachelor Buttons) Double bright blue blossoms and grey green foliage. H 2'

gymnocarpa 'Colchester White' A unique accent plant with felted, silvery white foliage which is finely dissected and grows in fern-like "fronds". Pinch often to keep the basal growth full and to prevent flowering.

CENTRATHERUM intermedium (Pineapple Sangria) A Brazilian native rarely seen in these parts. Mounds of pineapple scented leaves sit below good-sized, button-like blooms in a lovely lavender-blue. Early July-frost. Full to part sun. 18-24"

CERATOTHECA triloba Broadly tubular flowers with a lower lip marked with fine, dark lines, looking suspiciously like a runway for pollinating insects. A real knockout in our gardens last summer. Responds well to pinching otherwise its heavy flower stalk will need support. Offered in mauve and white. Full sun, average soil. 2-4', Rare, Heirloom
'White'

CERINTHE major purpurescens 'Kiwi' Silvery, blue-green foliage provides the perfect

Annuals

backdrop for unique flowers. At the tips of arching stems, dangle deep purple flowers surrounded by bright blue bracts. Prefers to be shaded from the afternoon sun and moist soil. Very cold hardy and often reseeds. 12-24", Heirloom

CHRYSANTHEMUM paludosum 'Snowland' Well-branched bushy plants produce an abundance of single, white, daisy like flowers all summer. Full sun, average soil. Compact habit. H 7"

CHRYSOCEPHALUM apiculatum 'Flambe Yellow' (Common Everlasting) Beautiful, small, rounded, vibrant golden-yellow pearl-like blooms that sit on wonderful silver-gray foliage, also known as a strawflower because of its papery like texture. These blooms cover the bright foliage all season. Very drought tolerant. Full or part sun. 8-14"

CINERARIA AKA PERICALLIS 'Senetti Blue Bi-Color' A wonderfully fragrant relative to the daisy, an early bloomer, this hybrid has better branching, larger blooms and more tolerance to fluctuations in temperatures. Sun to part sun, 10-16" tall and 8-12" spread.

CLEOME The Spider Plant is striking with its tall, upright stems, palmate leaves, and spidery clusters of flowers. New flowers form as old ones mature to long attractive pods. Cleome doesn't mind the heat and often reseeds for the following year. Short lived cut flower. Full sun, average soil.

'Creme de la Creme' [NEW] Unique, variegated cream colored foliage with large, bright purple flowers. Reseeds freely. H 24-30"

senorita series Sterile flowers, thornless and odorless foliage. Grown from cuttings. Available are 'Rosalita', lavender pink flowers and 'Blanca', silvery white in warm temperatures, but under cool conditions, the flowers will be a pale pink. Great in containers. H 24-28".

Annuals

ideal for smaller pots and mixed combos. Great garden performance in sun or shade. H 18-24".

'Chili Pepper' Rich burgundy foliage with a purple and chartreuse edge.

'Chipolte' Spiky green-gold leaves with a smoky mahogany center and a compact habit. Tolerates sun. H 18-22"

'Habanero' Warm orange leaves with a jagged edge. A compact habit and sun tolerant. H 12-18"

'French Quarter' Pink, magenta and green leaves. Slow to flower, it is a vigorous grower and sun tolerant. H 18-36"

'Glennis' Sunny yellow leaves are edged in a mottled pink, green, and burgundy. Sun or Shade, H 18-28".

'Great Falls Angel' New trailing coleus. Minute, heart-shaped leaves have magenta centers highlighted with green trim. Shade and heat tolerant. H. 6-10" x 12-18" W.

'Inferno' Juicy red-orange serrated foliage makes a red-hot impression in full sun or shade. H 14-28"

'Inky Fingers' Fingered leaves are a dark burgundy with bright green scalloped edges. 10-12"

'Kingswood Torch' Hot pink leaves are edged in rich, dark burgundy. 2-3'

'Kiwi Fern' [NEW] Favored for its unusual, airy quality, this coleus has narrow, frilly leaves that are dark purple and red with yellow highlights at the edge. Shade and sun tolerant. H 12-18" mounded

'Merlins Magic' Small, mounding and deeply lobed. Fantasy type leaves are bright green and yellow with a thin purple border. Ferny effect that will lend textural contrast to planters. 10-15", Mounding, Sun or shade.

'Mount Washington' Deep purple leaves with magenta ribs generously flecked in and edged with yellow green. 30-36"

'Pinkplosion' Green leaves with pink and cream splashed in the center. The serrated edge is thinly penciled in purple. Best in light shade but will tolerate full sun. H 14-28"

'Rediculous' Forms a robust, colorful mound of intense red; its rediculous! Sun to shade tolerant. H 20-24". A new and improved replacement for no longer available 'Big Red Judy'.

'Royale Cherry Brandy' This jazzy new Coleus for sun and shade features red leaves, forming a very well-branched plant that works well in landscapes and containers. H 16-24"

'Ruby Slippers' Bright leaves that are similar to 'Big Red Judy' but more compact. Sun to shade. H 14-24"

'Sedona Sunset' Apricot-orange leaves with some pink blushing. Full sun to full shade. H 24-36"

under the sea series From Hort Couture comes this fun, colorful, eye-catching new breed of coleus. With 'crustacean' type foliage and names like the following, they grow compact, are sun tolerant and can be placed in both the sun and the shade. 15-18"

'Bonefish' Deeply dissected leaves of bright fuchsia with chartreuse margins. Delicate feathery appearance.

'Clownfish' [NEW] Lovely leaves of coral, pale bronze, and yellow are surrounded with a unique edge.

'Electric Eel' [NEW] Pointed leaves are electric pink with a chartreuse edge.

'Fish Net' The sea-green leaves of Fish Net have purple veining, but the filigreed edge is what sets it apart from the similarly colored standard coleus 'Fishnet Stockings'.

'King Crab' Wide, red leaves with a golden edge, claw-like fringed leaf center has a darker red flare. Very vigorous grower.

Annuals

'Lemon Coral' [NEW] Narrow, sea-green filagree leaves have a purple edge.

'Wasabi' Serrated chartreuse leaves. Holds brilliant color without fading or spotting. Sun or shade. 18-28"

wizard series Compact and uniform, a great series for bedding. 12-14"

'Mix' A lovely mix of greens, yellow, rose and orange colors.

'Sunset' This tough and versatile variety does best in part shade as full sun may scorch the beautiful bronze leaves. Compact and bushy plants. 12-14"

COLOCASIA esculenta (Elephant Ears) Dramatic foliage plants native to tropical Asia, where they grow in naturally moist areas. Very large leaves are either arrow or heart shaped with prominent veins. Perfect in gardens, water margins or large containers. Prefers partial shade. 3-5'

'Black Ruffles' 'Black Ruffles' is a selection from 'Black Magic' with ruffled leaves. The ruffled edges give this selection an elegant look. H 4-5'.

'Illustis' Dark green-black leaves with silvery veins. Very vigorous. 3-4'

'Maui Gold' Textured chartreuse foliage held on ivory white stems. Foliage does not burn in high temperatures or full sun. H 48" x 36".

'Mojito' Large spearmint green leaves mottled and splashed with hints of black. An eye catcher. 2-3'

CONVOLVULUS A morning glory relative with widely flared, funnel shaped flowers. These clumping plants grow only 2' long and are perfect for baskets, barrels or borders. Full sun.

sabatius 'Early Blue' This plant bears small nickel-size, open blooms all summer long on trailing, strong growing stems. Sage green leaves offset its soft blue flowers just perfectly. 4-8"X10-12"

tricolor 'Ensign Blue' This variety has bright blue, 2.5" flowers with a yellow sunburst in the center and a band of white sandwiched in between. 12"X36"

CORDYLINE Long sword-shaped leaves, exceptional plant to use for height and texture in container plantings. Sun to part shade. Bring indoors to overwinter. Most H 2-4'.

'Black Night' [NEW] Dark leaves line the dark upright stem.

'Can Can' [NEW] Can Can is unusual in that the leaves start out red and then age into variegated green and cream, so you will have both colors on a plant at the same time.

'Pink Champagne' [NEW] Striking variety with pink, green and cream stripes.

'Pink Passion' Bold neon pink leaf margins and grey purple centers. H 2-4'

'Red Star' Deep red Burgundy red sword-like leaves offer great texture and color.

'Renegade' [NEW] Dramatic, broad, arching dark purple-black foliage that has a glossy lacquered finish.

COSMOS Old-fashioned bloomers create airy stands of cheerful flowers. Ideal for butterfly gardens and cottage gardens. Thrives in poor, infertile soil. Over fertilizing results in lots of foliage but few flowers. Full sun.

bipinnatus Broad, open flowers float above fine, airy foliage on sturdy stems.

'Double Click' Tall plants with large fully-double and semi-double blooms in shades of carmine, pink and white. 42-46"

'Peppermint Twist' Huge 6" snow white flowers edged with crimson, early flowering. H 24"

'Sensation Mix' Single flowers, mix of rose, red and white. Tall stems. 36-48"

sonata series An exceptional compact series available in carmine, white or a mix of

Annuals

colors. Great garden performance. 20-24"

'Carmine'

'Mix'

'White'

'Xanthos' This new pastel lemon yellow-colored, dwarf cosmos will make a sunny display. H 10-24"

'Chocamocha' Delicate chocolate-colored flowers held on sturdy stems with fernlike foliage. Loads of cocoa scented flowers. Yummy! 10", Heirloom

sulphureus C. sulphureus generally are smaller plants with deeply cut foliage and smaller flowers in warm "sulphur" tones.

'Bright Lights Mix' Semi-double flowers, mix of yellow, gold and orange. 3'

'Cosmic Mix' Offered in a mix of bright orange, rich red and yellow colors, these plants are stocky, well branched and are loaded with double flowers. H 12"

'Monas Orange' Bright orange, single flowers are often a darker orange around the edge. A real knockout! 36"

CUPHEA Very heat tolerant plants, originating from South America, form bushy mounds smothered in dainty colorful flowers. Once a customer discovers that these plants bloom non stop in hot weather even with a little neglect, they are always back for more the next season. Full to part sun.

'David Verity' Deep orange, tubular blooms are small but add a subtle bright spot to mixed containers. A hummingbird favorite! 18-24"

'Honeybells' [NEW] A semi-trailing mounding habit, with eye-popping bicolor rose and light yellow tubular shaped flowers. Great for basket and container combinations. Part shade to full sun. H 10-12" X 20"

hyssopifolia (Mexican Heather)

floriglory series This new series of Mexican Heather boasts extraordinary flower power and brings new colors to the category. Offered as 'Diana', deep magenta flowers and 'Maria', pure white. H 12" x 18" W

'Diana'

'Maria'

'Lavender Lace' Delicate, lavender-pink flowers cover shrubby, rounded mounds from late spring to Oct. Unbelievable flower power, H 6-10"

ignea 'Dynamite' (The Cigar Plant) This species is native to Mexico and Jamaica and is characterized by long tubular scarlet flowers with dark tips, resembling a lit cigar. Compact plants that blooms all summer. 8-10"

lavea 'Flamenco Samba' (Bat faced cuphea) Large, rich, burgundy flowers bloom continuously throughout the season. Deadheading not necessary. H 12-20"

CYMBALARIA muralis (Kenilworth Ivy) Kenilworth Ivy is a hardy, shade loving creeper with light green foliage and masses of tiny, lilac-white flowers all summer. Nice cascading habit for containers. Keep moist. Trails 8-12". May overwinter.

CYNARA cardunculus (Cardoon) Large, showy ornamental with woolly, gray-green leaves. Looks dramatic in urns or in the landscape. Edible root and stalks. Tender perennial. (Zone 6) 2' foliage, 5' in flower (if season is long enough - purple, thistle-like blooms) Full sun, average soil.

DAHLIA pinnata Large, brilliantly colored blooms overlook a mound of leathery green leaves. A good bedding plant for a very sunny location. Attracts butterflies.

Annuals

'Bishop of Canterbury' Vibrant rosy-purple with dark foliage. 4'

'Bishop of Llandaff' A knockout with its single, bright red, 4" flowers contrasting against dark purple foliage. 4'

'Bishop of Oxford' Coppery orange flowers with dark foliage. 4'

'Bishop of York' [NEW] 4" gold blooms are held on a gorgeous black foliage plant. H 4'

'Bishops Children' Hot neon blooms against black foliage. A warm toned mix of solid and bi-color shades of red, orange, yellow, pink and purple. Both single and semi-double peony flowers. Informal bushy plant reaches 2 1/2 to 3' tall and about 1' wide.

city lights series Dark-leaved dahlias with bold colored blooms last all season long. Offered in Lavender Pink, Purple, Red and Yellow. H 16-18"

'City Lights Golden Yellow'

'City Lights Lavender Pink' [NEW]

'City Lights Purple'

'City Lights Red'

dalaya series An early flowering, medium sized Dahlia, powdery mildew tolerant. Excellent branching and repeat bloomers. Available as 'Shari', pink stripes & yellow centers and 'Yogi', pink with dark center. H 16-18".

'Dalaya Shari'

'Dalaya Yogi'

dinner plate varieties Fully double, ginormous flowers. Truly as big as a dinner plate! All very floriferous varieties that produce color from early summer into fall.

'Dazzling Magic' [NEW] Fully double, up to 10" flowers in yellow blending towards red in the center. H 40-42"

'Kelvin Floodgate' [NEW] If you like yellow, you'll love the classic, butter-colored flowers that arrive dinner plate-sized, at up to 10" across. H 36-40".

'Myrtles Folly' Narrow twisted petals of peach, pink and yellow. Huge, 8", long lasting flowers. H 36"

'Ottos Thrill' An eye-catching 3-4' Dahlia with magnificent double pink flowers, up to 8-10" wide. Are not top heavy and will not fall over in rain.

'Vancouver' [NEW] Full double colossal (up to 10") purple flowers with a lighter center. H 36"

'Electro Pink' [NEW] The world's first dark-leafed, cactus-flowered Dahlia. Elegant hot cerise pink in color. Blooms 4" in diameter. H 12-16"

'Fascination' A unique offering with outstanding purple-magenta blooms against dark purple foliage. 3'

'Figaro Mix' Double blooms, mix of bright colors on slightly taller plants. 14"

hypnotica series [NEW] Large flowers, good branching, uniform in flowering through summer. Available as 'Icarus', yellow/red and 'Yellow'. H 12-18"

'Hypnotica Icarus' [NEW]

'Hypnotica Yellow' [NEW]

karma series More lovely colors of Dahlias, each growing 2-3 feet tall. 'Corona', a blend of salmon, yellow and bronze cactus-type blooms and 'Fuchsiana', fuchsia pink, waterlily form, 'Chocolate', deep burgundy chocolate blooms, 'Prospero', pale pink with deep pink center and dark foliage, 'Serena', white blooms. NEW for 2020, 'Pink Corona', many shades of pink with yellow center and 'Lagoon', purple-blue flowers.

'Karma Chocolate'

xxl series Strong stalks and colorful blooms are the traits that make these great cut flowers, along with good branching and enormous double flowers. 20" X 18". Available colors are burgundy-red, orange w/ yellow center, intense pink, pink, yellow and white.

'XXL Durango'

'XXL Mayo'

'XXL Merida'

'XXL Paraiso'

'XXL Sunset'

'XXL Taxco'

DAISY See Dahlberg and Marguerite.

DATURA inoxia (Angels Trumpets) Angel Trumpets are bold, upright, large leaved bushes with huge trumpets. Sweetly scented flowers open in the evening, until the following morning and all day when cloudy. Decorative seed pods add interest. The richer and moister the soil, and the hotter the summer, the larger these plants will grow. Full sun. Reseeds freely! All parts of this plant are poisonous!

ballerina series Characterized by fully, 6 to 8", double blooms. Offered in 'Purple' with deep purple-red stems and frilly blooms with pale purple interiors and dark purple exteriors. Also, a sunny soft 'Yellow'. H up to 20"

'Purple' Deep purple-red stems and frilly double blooms with pale purple interiors and dark purple exteriors. Bumpy, speckled seed pods.

'Yellow' Soft foliage contrasts beautifully with fragrant, upward facing blooms from summer until frost.

Annuals

DELPHINIUM grandiflorum 'Summer Nights' Tender perennial Delphinium, loved for the dwarf size and elegant spikes of indigo blue flowers. Bloom strongest in June. Full sun. Fertilize regularly. 12"-18".

DIANTHUS A family of plants which includes carnations and are characterized by the spicy fragrance the blooms emit. Dianthus plants may be found as a hardy annual, biennial or perennial. Sun, well-drained soil.

barbatus (Sweet William) Technically a biennial, this classic, old-fashioned cottage garden plant is great in annual borders. Extra strong and long stems for cutting gardens Should reseed. Nice cut flower. Deadhead to prolong blooming.

'Jolt Pink' A blaze of showy, bright-pink, fringed blooms, non-stop from spring to fall. H 16-20"

'Sweet Mix' Large fragrant flower heads that bloom uniformly across all colors. Mixture of coral, purple, red w/white eye and white. H 18-39"

hybridus 'Rainbow Loveliness Mix' Uniquely lacy blooms loaded with fragrance. Deeply cut, lacy flowers in shades of rosy pink, lilac, white, purple and red on long stems. H 12-14"

DICHONDRA argentea 'Silver Falls' An exceptional component plant with brilliantly silver foliage. Many long, trailing stems are clothed in small, roundish leaves. Trails 1-3'. Truly stunning in mixed containers. Sometimes, if lucky, they reseed into dry cracks and crevices of walkways or stonewalls. Keep on the dry side. Full sun.

DIDISCUS AKA TRACHYMENE caerulea 'Lacy Blue' (Blue Lace Flower) This old-fashioned garden plant produces lacy umbels of sky blue flowers upon graceful stems. The fine textured blooms make a delightful cut flower in small bouquets. Full to part sun. 24", Heirloom

DIGIPLEXIS Best New Plant Award at the Chelsea Flower Show and Greenhouse Growers 2013 Award of Excellence! This hybrid foxglove is a cross between Digitalis and its relative Isoplexis. Digiplexis® are hardy in zones 8 and higher, although the longevity of the blooms makes this tender perennial a must have for gardeners in every climate. Blooms from spring until fall. Will not self-sow. Full to part sun, average soil.

'Berry Canary' Spikes of hot pink flowers with creamy yellow, burgundy speckled throats are borne all the way around the stems above the rosettes of large, glossy, dark green leaves. Prolific bloomer, H:20-24"

DIGITALIS purpurea 'Foxy' (Foxglove) An annual Foxglove which blooms all summer in full sun or partial shade. This All America Winner produces racemes of thimble shaped flowers in cream, yellow, and purplish-rose shades. 2-3', Heirloom

DRACAENA cordylena (Spikes) Spikes are traditional accent plants with long, sword-like leaves. They are often used in the center of planters to add height and textured foliage. Sun or shade. 2'

DURANTA (Skyflower) This member of the Verbena family is a large evergreen shrub in its native South American location, where it grows 15-18'. In our climate it grows 1-2' in height and makes a beautiful container specimen. Full sun.

aurea 'Gold Edge' One of those rare chartreuse foliage plants for full sun. Glossy green leaves are thickly edged in bright gold. A great accent plant of mixed containers.

DUSTY MILLER senecio cineraria Traditional silver foliaged accent plants that endure hot, dry conditions. Serrated silver leaves add texture and contrast in the garden. Cold hardy annuals last late in the fall. Full to part sun, average soil. 8"

Annuals

'Circrus' Large, round, broad silver leaves are produced on compact plants. Known for excellent weather resistance. 8"X20"

'Silver Dust' Showy, finely lobed silvery-white foliage on uniform plants. H 10-12", 10-12" spread.

EMILIA coccinea 'Scarlet Magic' (Tassel Flower) Vivid red button flowers are held up on slender stems. These attractive fluffy flowers gently sway in a breeze, resembling a artist's tassels. A nice filler plant with striking color. Full sun to part shade and average soil. 16", Heirloom

ERIGERON karvinskianis 'Profusion' Masses of tiny daisies cover low, spreading plants all summer long. The flowers open white and mature to pale pink, creating a delightful pastel mix for borders and containers. Full to part sun. 5"

EUCALYPTUS A tender evergreen tree, native to southern Australia that makes an excellent foliage accent in our colder climate. Minty aroma. Full to part sun.

gunii 'Silver Drop' Smaller leaves than 'Silver Dollar', with red tinted stems and leaf tips. Grows to a 2-3' shrub in one season.

pulverulenta 'Baby Blue' [NEW] Beautiful blue foliage most widely used in floral art. Striking smaller, multi-branched evergreen tree. Good species for the smaller gardens and containers.

EUPHORBIA 'Diamond Frost' This is one of the most popular 'filler' container plants. A wonderfully heat- and drought-tolerant plant, it produces a continuous supply of frothy blooms from spring to fall. H 18" x 24" W

EVOLVULUS 'Blue My Mind' Delicate, petite, true blue flowers cover the silvery foliage. A heat loving plant that will be covered with blooms from spring to fall. Mounding/trailing habit that will make an excellent addition to containers or as a ground cover. Sun. H 6-12", spread 12-24".

FERNS Fabulous foliage components integral to your gardens or containers; within this selection of ferns you'll find the addition you need: either lacy, delicate, small, bold, or large. All can be overwintered as house plants. They need lots of humidity, indirect light and should never dry out.

ACTINIOPTERIS semiflabellata 'Eyelash Fern' [NEW] An un-fern like fern. It is a miniature variety that has fan shaped fronds and may reach 8" tall or so. Remains compact.

ARACHNOIDES simplicior 'Variegata' (East India Holly Fern) This charming fern is evergreen with dark green leaves and bright yellow variegation down the midrib. Will grow up to 2'

ASPLENIUM This popular group of ferns is prized for its frond symmetry, frond texture and sheen and great growth habit.

dimorphum 'Austral Gem Fern' Growing to a height of 20" tall and about 24" across. The thick yet delicate fronds are so glossy that they look fake!

nidus (Common Birds Nest Fern) Featuring strap-shaped, glossy, bright apple green fronds with contrasting dark brown to black midribs and wavy margins. Fronds spread upward and outward to form a vase-shaped, green rosette with a nest-like center.

DIDYMOCHLAENA truncatula (Mahogany Fern) Long, semi-leathery fronds emerge peachy-pink and mature to a rich emerald green. The stems are a deep red and will grow to 18" in one season. Happiest in moist, humus-rich soils. Enjoy this beautiful fern in your seasonal planter then bring it indoors as a house plant.

HEMIONITIS arifolia (Heart Fern) A very unusual tropical fern. Small, dainty and shade

Annuals

loving, it grows well in medium to low light with high humidity. Dark green, heart shaped fronds are shiny and smooth textured, will reach 2-3" in length. Both an epiphyte (grows on trees) as well as a terrestrial plant. Grows well as a terrarium or house plant. Likes soil moist (but not soggy) at all times. 70-75 degree temps.

MICROLEPIA strigosa (Lace Fern) Bright green lacy fronds, 15-20" long, that arch gracefully making it a good choice for hanging baskets or specimen containers.

MICROSORUM diversifolium (Kangaroo Paw) [NEW] An epiphytic evergreen with firm leathery fronds that are oddly shaped and vary in size. It's an example of a rhizomatous fern. The kangaroo paw fern only grows to be about a foot tall but can spread out to 2-3 feet in width. Available in a 10" hanging pot.

NEPHROLEPIS This genus has about 30 species of evergreen ferns. The most common being the Boston Fern, a natural air purifier.

cordifolia 'Duffi' (Lemon Button Fern) This fern produces cute golden-green fronds with a rounded edge, thus giving it a button-like appearance. Smells slightly like lemons. A compact grower, will grow to 12" tall and wide.

obliterata 'Jesters Crown' 'Jesters Crown' is a fairly new and desirable addition to the Boston family. The sword like fronds give a distinct dark green foliage that appears to gently twist as they grow upwards. Grows up to 30"

PELLAEA roundifolia (Button Fern) An low-growing fern with small rounded, button-like leaves that line its wiry, burgundy-red stems. Makes a beautiful accent. Enjoys filtered sunlight. Up to 10".

PTERIS cretica 'Albo Lineata' (Silver Ribbon Pteris) Small delicate fern with silver margins on its gray-green fronds.

WOODWARDIA orientalis 'Oriental Chain Fern' [NEW] Tough-looking bipinnate, pointed-tip leaves that arch or droop elegantly. It has the presence of a tree fern but without the trunk. It will produce a vast number of little baby plantlets.

FOUR OCLOCKS (Mirabilis) An old-fashioned favorite whose flowers open in the late afternoon, as the common name suggests, and not at all on cloudy days. Funnel shape flowers are pollinated by moths and other insects during the night.

'Marbles Mix' Heavy bloomer! A mixture of multicolor cultivars in a wide range of bicolors that include pink, yellow and white. Offers a summer filled with color. 24" X 14"

'Salmon Sunset' True salmon-colored trumpets with a pale pink star at the center of each flower. H 2-3'

FUCHSIA Shade lovers with intricate blossoms. The blooms consist of upward arching sepals (outer petals) and single or double corollas (inner petals) from which dangle long stamens. Each bloom looks like a dancing fairy. All prefer a cool, moist spot. Keep well-watered and fertilized during the heat of summer. Part shade to shade, though some varieties prefer more sun.

trailing types Trailing foliage and dangling blooms create a showy display for hanging baskets. Loved by hummingbirds.

'Dark Eyes' Double violet-blue corollas surrounded by rose-pink sepals.

'Eruptions' [NEW] A trailing fuchsia with the beauty of a Gartenmeister upright. Covered with masses and masses of deep pink trumpet shaped blossoms when mature.

magellanica This hardy fuchsia is known for its colorful foliage.

'Aurea' Crimson flowers and small, golden, yellow leaves on arching reddish stems. A striking component plant for mixed containers and window boxes. Sun or shade, although the foliage is brighter in sun.

Annuals

'Versicolor' Grey green leaves edged in white. New growth is tinted pink providing a lovely accent. Delicate red flowers, shade or part sun.

'Marinka' [NEW] Marinka is a trailing fuchsia bearing large flowers in two shades of red.

'Swingtime' Double white corollas surrounded by rose-pink sepals.

upright types Well-branched plants for beds and containers.

'Autumnal' Cascading branches clothed in bright rust colored foliage and brilliant red flowers all summer. Mounding habit. 18-24"

'Ballerina Blue' Double, deep purple corollas surrounded by cerise sepals. Flowers all summer.

bella series Compact, upright and bushy . Offered are 'Evita', flowers with deep pink sepals and single, pink-veined, white corollas, 'Mariska', flowers with pink sepals and single, purple to magenta corollas and 'Soila', deep reddish-pink sepals and single, deep purple corollas.

'Bella Evita'

'Bella Mariska'

'Bella Soila'

'Firecracker' Fabulous green and cream variegated foliage with bright salmon orange flowers. Part shade to sun. 24-30"

'Gartenmeister Bonstedt' Smooth burgundy veined leaves with purple undersides. Clusters of showy, deep apricot flowers all summer. This vigorous ever-bloomer is tolerant of sun and heat. 12-18"

'Mrs. J D Fredricks' [NEW] The tube is pale salmon pink, the sepals salmon pink and the single corolla is rich pink. H 15-18"

triphylla 'Billy Green' [NEW] This upright fuchsia bears typical slender, tapering tubular flowers with short sepals and small petals. Flowers are deep pink, and contrast beautifully with olive-green foliage. H 24"

windchimes series Upward, large double, brilliantly colored flowers with compact growth that never becomes straggly and keeps blooming even in the heat of the summer. 10-16". Available in 'Lilac Rose' and 'White & White'.

'Windchimes Lilac Rose'

'Windchimes White and White'

GAILLARDIA pulchella 'Red Plume' Fluffy, very double flowers of brick red. All American Award winner. Showy daisy-shaped blooms on compact, bushy plants with incredible tolerance of drought, heat, and poor soil. Great garden performance all summer. An excellent choice for massing in annual borders. Full sun. 12"-14"

GAURA lindheimeri belleza series (Bee Blossom) A native of North America, Guara gives the garden a wonderful informality with its long, wispy stems and butterfly-like flowers. Does well in hot, dry sites. Commonly listed as a perennial, we have found it not to be reliably hardy in our gardens. Flowers from summer until a hard frost. Use in containers and borders. Full sun, average soil. Try 'Belleza White' or 'Belleza Dark Pink', with dark leaves. H 12-18"

'Belleza Dark Pink'

'Belleza White'

GAZANIA new day series Bright, showy flowers, open in full sun but close at night and on cloudy days. An African native, this daisy is very heat and drought tolerant. Full sun, average soil. This series is compact, with large 3" blooms. Available in Pink ('Pink Strawberry Shortcake Mix') and a Bright Mix. 6-8"

Annuals

'Bright Mix'

'Pink Strawberry Shortcake Mix'

GERANIUMS pelargonium Long standing favorite annuals with a plethora of uses. Full to part sun, average soil.

fancy leaf hybrid forms Foliage plants have become an integral addition to perennial beds and more importantly container gardens. This type of geranium is grown for its unusual foliage variations of both color and shape. Often highlighted with single blooms of bold colors.

'Brocade Cherry Night' Chocolate leaves with a narrow green margin topped with vibrant cherry colored blossoms. H 10-12"

'Brocade Fire' Unique bicolor foliage with a nonstop display of semi-double orange flowers. Holds its foliage color and brilliant blooms throughout the hot summers.

bullseye series Unique dark chocolate foliage, edged in light green, creating a nice contrast to the large 4 to 5" flowers on multiple stems. Available in Cherry and Light pink.

'Bullseye Cherry'

'Bullseye Light Pink'

'Mrs. Peters' Mrs. Peters' bears single, bright-pink flowers amidst green and cream variegated leaves on mounding plants that remain shorter than 14 inches.

'Mrs. Pollack' A fantastic variegated leaved Geranium. The bright, attractive foliage consists of tri-colored leaves of yellow, red and green with orange-red flowers.

'Persian Queen' Single magenta flowers above bright lime-green foliage. Striking color combination.

sidoedes A unique clump growing Geranium packed with small, felted grey leaves. Deep maroon flower clusters are held on fine stems.

'Vancouver Centennial' Decorative foliage is lobed and pointed, marked with burgundy against an almost chartreuse background. This fantastic contrast is highlighted by bright orange-red flowers. 12-14"

'Wilhelm Langguth' Intense red flowers appear over green foliage splashed with cream, lovely variegation. Grows to 12".

pelatum (Ivy Geraniums) These are trailing geraniums that tumble happily out of hanging baskets or containers to form cascades of flowers and foliage that resembles ivy.

'Ivy Cascade Sophie' [NEW] Single, 5 petal, pink flowers, compact and trailing, appear spring into fall.

'Ivy Great Balls of Fire Burgundy Blaze' Bold clusters of lightly-scented burgundy flowers with white streaks at the ends of the stems from late spring to early fall.

ivy royal series Heat tolerant, vigorous ivies that have self-cleaning single flowers. A spreading habit and maintenance-free flowers make this series ideal for beds and containers. Offered in Blue, Burgundy, Dark Red, Lavender, Light Pink, Salmon, Scarlet Red and White.

GERBERA 'Mega Revolution Select Mix' (African Daisy) An elegant long season display of big, bold, daisy-like flowers set on well shaped plants with crisp dark foliage. The largest of flower sizes in 12 different colors. Grow in moist, but well-drained soil, in full sun. Attracts butterflies like crazy! H 16"

GOMPHRENA Globe Amaranth has long been treasured in everlasting arrangements with its papery, clover-like blooms. Likes well-drained, even dry soil and full sun.

Annuals

globosa 'Cosmic Flare' An all summer, shockingly beautiful 'Cosmic Flare' will brighten up any border or container with its spectacular chartreuse foliage and magenta blooms. H 15-24" x 20-24".

las vegas series This new series provides bright colors, excitement and heat tolerance. Available in Purple and Pink. 20"Hx20"W.

'Las Vegas Pink'

'Las Vegas Purple'

pulchella 'Truffula Pink' Flowers are held on graceful, arching stems above narrow leaves. The blossoms are hot pink orbs tipped in tangerine. H 22-28"

'Qis Red' Bright and bold shade of red. 24-26"

GRASSES Ornamental Grasses have been gaining popularity with each passing year, understandably so. They make wonderful statements in any garden with their strong linear shape and their inflorescence gracefully swaying in the breeze. Sun

CAREX 'Frosted Curls' Finely textured grass with light green edged in darker green. Its pendant, cascading habit has a softening effect. H 10-14", Prefers moist conditions.

CYPERUS Native to the tropical and temperate regions of the world, these sedges are aquatic plants that grow in still or slow moving water. Great as a focal component in water gardens or ornamental containers. Part sun to sun.

'Baby Tut' 'Baby Tut' is a smaller version of 'King Tut'. A water garden friendly-grass that can be planted in the landscape or mixed containers, as well. 18-24"

'King Tut' This dwarf form of Giant Papyrus has pendulous greenish leaves and greenish flower spikelets atop tall upright stems. An exotic looking beauty. 48-72"

'Prince Tut' A nice compact form, about half the height of King Tut, but with the same large poms on the ends of the stems. 30-48"

ISOLEPSIS cernus 'Live Wire' Fiber-optic Grass has a dense mop-like tuft of fine green foliage that is tipped by tiny flowers. Looks fabulous as the sole specimen in an elevated pot where its graceful, pendulous form can be displayed.

JUNCUS Juncus rushes have leaves which are either thin or round and contain a spongy pith. There are many species, the following ornamental rushes are well suited for annual beds and mixed containers, with their unusual and different, stiff upright foliage.

effusus 'Big Twister' Wow! Deep green cylindrical foliage twirls in bold, upright spirals, creating a modern look. Height 18-24"

inflexus 'Blue Arrows' Linear blue foliage and strong vertical habit makes this a reliable accent in container plantings. This low maintenance rush tolerates full sun and drought, yet can be used as a pond plant. 3'

MELINIS nervigulumis 'Savannah' (Ornamental Ruby Grass) A tropical grass featuring tufts of erect but soft blue-green leaves. Showy panicles of ruby pink flowers that slowly fade to white appear mid summer through fall. H 18-24"

PENNISETUM Annual grasses are much underused garden plants. Amidst flowering bedding plants, they make unique accents with their feathery wands and flowing foliage. Heat and drought tolerant.

setaceum (Fountain Grass) Fountain Grass produces arching, feathery inflorescence in a lovely greenish purple which age to a golden brown in Fall. A loosely gathered circle of narrow blades forms a graceful mound. 2-3'

advena A hybrid of fountain grass which bears slightly wider, arching blades

'Cherry Sparkler' Yet another spectacular 'Rubrum' sport! Pink blush overtakes the white and green striped leaves as light levels increase. Red/burgundy plumes. Height 2'

Annuals

'Fireworks' 'Rubrum' with a flair! A variegated purple fountain grass with mid-veins of burgundy and hot pink margins. Simply fabulous!

'Rubrum' (Purple Fountain Grass) Deep burgundy foliage is topped by dramatic purple-red plumes all summer. 3-4'

'Skyrocket' Bright green and pristine white foliage with plumes. A morphological sport of 'Fireworks'. 20-30"

x. 'First Knight' The newest noble boasts the deepest, darkest, blackest purple of them all. A sword thrust of very upright leaves in center, arching around the edges. Hail! H 48-54"

STIPA tenuissima aka nassella ten. 'Pony Tails' Mexican Feather Grass is a very fine textured grass which forms a wispy fountain bordered by creamy silver inflorescence. A cool season grower which maintains its beauty all summer. Lovely swaying in a breeze. May over-winter. Prefers dry conditions. 18-24"

GYPHOPHILA muralis gypsy series Compact mounds of foliage are covered by clouds of tiny, papery blooms. Heat tolerant. Forms neat mounds that are 8-10" tall and wide. May reseed. Full to part sun, average soil. Offered in 'Deep Rose' and 'White'.

'Gypsy Deep Rose'

'Gypsy White'

HEDERA A collection of different trailing varieties, ranging in color, leaf size, leaf shape and variegation. Wonderful as an accent in container combinations. Sun to Shade

helix A popular group for containers and shade.

'Hahns' Lush dark green, 5 lobed leaves on a densely branched plant. Perfect spiller in shady containers.

'Marengo' (Variegated Algerian Ivy) Variegated glossy green foliage and deep red leaf stalks. The large leaves are heart shaped with speckled creamy white margins. Trailing.

'Montgomery' 'Montgomery Ivy' is a large leaf, solid deep green ivy that is a vigorous grower. It can trail several feet from a hanging basket or other container.

'Needlepoint' this Ivy brings a delicate, rich green leaf with thin, pointed tips that trails and accents beds, borders and baskets.

'Ralf' This selection is the fastest growing and best self-branching of its species.

Displays handsome green leaves. One of the best choices for a fast-growing screen or groundcover.

HELICHRYSUM Great foliage plants to add textural interest or to cool down hot colors. These multi-branched plants are ideal accents in the garden or large planters. Heat tolerant but heavy drinkers. Full to part sun.

augustifolium 'Icicles' Dense, upright clumps of bright silver, needle-like foliage. A nice foliar accent which is also edible!

petiolare Trailing, well-branched plants with soft, rounded leaves. Excellent weaving amongst taller plants. Excellent companions to hybrid vegetative petunias.

'Licorice' Soft, silver leaves. Extremely vigorous grower, spreading habit.

'Licorice Lemon' Lime green foliage on plants preferring partial shade.

'Licorice Splash' Gray green leaves variegated with greenish yellow. Compact.

minus 'Silver Mist' With small, bright silver, fuzzy foliage and a more polite growth habit, this is truly superb component trailing plant. 6-8"

HELIOTROPE heliotropium arborescens Large, dense clusters of deep purple blossoms rise above dark green, deeply ridged, purple tinged foliage. The blossoms have a sweet

Annuals

vanilla aroma and are a nice cut flower. Plenty of fertilizer and water will produce luscious growth and large flowers all summer. Attracts butterflies. Sun

'Fragrant Delight' An immensely fragrant, vegetatively propagated variety. Deep purple blooms. 12"

'Fragrant White' Large umbels of very fragrant, pure-white flowers atop medium green foliage. Fragrance resembles baby powder! H 12-18"

'Marine' Giant umbels of deep purple flowers. 12-18"

HIBISCUS A tropical plant, having large, showy variously colored flowers. They like indirect sunlight and good drainage, important because they do not like wet feet! Hibiscus will live a long time if you overwinter them indoors.

'Mahogany Splendor' A thriller in containers adding some awesome color and dramatic height. Resembling a mini Japanese maple, this 4-5' tall plant sends up a lovely mahogany screen of maple shape serrated deep burgundy leaves.

trionum 'Simply Love Superior' This variety has pale yellow flowers with maroon centers. Bushy habit and continuous bloom all summer. Marvelously heat tolerant and does well even in poor soils.

HOLLYHOCK 'Queeny Mix' A fantastic dwarf variety that boast 3-4", double blooms in a rich mix of colors. Unlike perennial varieties, these will bloom freely all summer. Prefer full sun. H 2-3'

HYPOESTES phyllostachya (Polka Dot Plant) Stunning bi color foliage with large leaves and vigorous growth habit. Full sun to full shade and adaptable as a houseplant. The upright habit allow this plant to be used as a thriller/filler in combinations. Offered as "Hippo Pink", 'Hippo Rose' and 'Hippo White'. H 16-22" X 8-14" W

'Hippo Pink'

'Hippo Red'

'Hippo White'

IMPATIENS An ideal annual flower blooming profusely with sparkling color all summer. The flowers drop away cleanly when spent and the plants are self branching. And perhaps most important, although impatiens are succulent plants needing abundant water, they will revive from a severe wilt with no apparent damage.

bedding A beloved flowering plant for full to part shade. Wonderful in beds or containers, Impatiens flower vivaciously all summer in an incredible range of jewel-tones. Very neat plants which drop their spent blooms, and form compact mounds. Best in ordinary, moist soil. Available in a wide range of colors. 8-10"

'Beacon Bright Red'

IPOMOEA (Sweet Potato Vine) A varied genus which includes the Morning Glory (See Annual Vines), Cypress Vine (See Annual Vines), as well as the popular "Sweet Potato Vines", which are not known for their flowers, but loved for their foliage.

batatas Decorative foliage and a bushy, sprawling habit ideal for a ground cover or a container plant. Sun or shade.

'Blackie' Burgundy-black palmately lobed foliage.

'Marguerite' Glowing chartreuse foliage. Very robust plants with an effortless cascading habit, ideal for trailing over the edge of containers.

'South of the Border Chipotle' A hot and spicy filler for containers. Nice contrast of dark wine and lime foliage. Moderately vigorous with a semi-trailing habit.

sweet caroline series Moderately, compact, deeply lobed leaves. H 6-16" tall and spreading/trailing up to 30". Offered in 'Kiwi', bright chartreuse, 'Light Green' and 'Red Hawk'.

'Kiwi' [NEW]

'Red Hawk' [NEW]

sweet caroline sweetheart series This is a compact, mounding series that grows 8" tall and will not overpower neighbors. Beautiful heart shaped foliage. Available in 'Red', 'Jet Black' and 'Lime'.

'Sweetheart Jet Black'

'Sweetheart Lime'

'Sweetheart Red'

'Tricolor' Lobed foliage of light green with pink and white variegation. Not as vigorous, or shall we say a more polite grower than other varieties.

LAMIUM maculatum 'White Nancy' Outstanding foliage plant for the shade. The 1-2" wide leaves are silvery white with green edges and have a quilted appearance and white flowers. Perfect as 'spiller' in mixed containers

LANTANA Heat loving plants with clusters of brilliantly colored florets, irresistible to butterflies and hummingbirds. Full sun.

camara This plant comes in many combinations of red, yellow, and orange flowers in small clusters. Deadheading spent flowers will encourage additional blooming and will prevent the growth of toxic berries.

bloomify series Offered in 'Mango', peach and yellow blooms, 'Rose', rose-pink and yellow flowers and 'Red', a blend of rose, peach and yellow hues. Sterile varieties, no more deadheading seed pods. Perfect plant to carry you through the summer months in color.

'Bloomify Mango' [NEW]

'Bloomify Red'

'Bloomify Rose'

'Hot Blooded Red' [NEW] A compact dense mound that produces a non-stop show of red hot flower clusters all summer. The sterile blooms allow it to focus its energy on prolific blooming, making it a superb choice for containers.

landmark series A nice mounded selection of vividly colored blossoms. Available in 'Citrus', 'Rose Glow', and 'Yellow'. H 15".

Annuals

'Landmark Citrus'

'Landmark Rose Glow'

'Landmark Yellow'

'Lucky Lemon Glow' The dark green foliage contrasts beautifully with the bright yellow and white flowers. H 12-16", spread 12-14"

'Luscious Marmalade' [NEW] Bright orange flowers grace this extremely tough rebloomer, with yellow and red highlights. H 10-14"

'Samantha' Variegated foliage sports golden blooms. Semi-trailing habit.

LARKSPUR consolida Loving cool weather, this Delphinium relative is best planted early in the season when the days are still cool. For optimum flowering and garden performance add plenty of lime prior to planting. Full sun.

ambigua 'Giant Imperial Mix' Showy spikes of pink, purple, white and lavender. Excellent choice for spring and early summer cut flowers. 24-36", Heirloom

'Blue Cloud' Bushy clouds reminiscent of Baby's Breath producing half inch florets in a rich purple hue. Self cleaning plants. 24"

LAURENTIA The diminutive size of this plant's leaves, flowers and overall height makes it a terrific plant for containers. Multi branched stems bear deeply divided alternate, 1" wide leaves. Delicate star shaped blue flowers appear in profusion all summer long. Full sun.

'Beths Blue' Grown from vegetative cuttings and slightly taller, 10-14"

'Gemini Blue' Single, star shaped blooms on finely cut foliage. Keeps nicely controlled mounding habit in containers. H 8". Easy to grow.

LEONOTIS Tender perennials native to South America with remarkable flowers and a posh upright stature. Whorls of flowers are carried on leafless stems, each whorl consisting of dozens of lipped flowers. Interesting plants best used in garden beds for a dramatic, quirky look. Full sun and well drained soil.

leonurus (Lions Ear) This lions ear fits nicely into mid to large planters and in mixed garden beds. Vivid orange, velvety, whorled blooms appear in clusters along upright stems. 3-4'

LINUM grandiflorum 'Blue Dress' Stunning border plant, producing tiny sprays with masses of true-blue flowers throughout the summer. Ideal for containers or borders. Full sun, 12-20"

LISIANTHUS eustoma grandiflora Unusual and treasured annual rarely found in the marketplace. Exquisite blossoms reminiscent of a cross between a tulip and a rose carried upon lovely gray green foliage. A breath taking cut flower that endures up to two weeks. Moist, fertile soil with some added lime is a must. Full sun

'Safari Mix'

'Safari Tangerine'

'Safari Yellow'

'Super Hero Spry' 2018 AAS Flower Winner. Lovely, 2" blooms of dark maroon lower petals and golden yellow upper petals. Earlier to bloom and no deadheading required. H 10-12"

tenuifolia (Signet) The Signet Marigold produces a bushy mound of lacy foliage covered by small, single, flowers all summer. The flowers and foliage have a fresh citrus scent and the blooms are edible, adding color to salads. Available in 'Lemon Gem' (Heirloom) and 'Tangerine Gem'. H 9-12"

'Lemon Gem'

'Tangerine Gem'

MECARDONIA 'Gold Dust' A low maintenance landscape plant that blooms from May to October! The little-leaved plant hugs the ground and blooms profusely all summer in bright gold. Also, works well as a 'spiller' in baskets or containers. Heat and drought tolerant, Full Sun. 2-5"Hx16"W.

MELAMPODIUM paludosum 'Showstar' This vivacious bloomer is the workhorse of your garden! Incredibly heat and drought tolerant. Once you try it you'll never be without. Lush bushy mounds of misty green foliage adorned by multitudes of golden-yellow blooms. Full sun to partial shade. 14-20"

MONARDA citriodora (Lemon Bergamot) [NEW] Lemon Bergamot has a wonderful taste and lemony aroma, usually grown as an ornamental or for its cut flowers. 1-3' plants with masses of tiered pink and purple blossoms from August until frost. Will self-sow, the dried flowers can be used in tea. Highly attractive to honeybees and other pollinators.

MUEHLENBECKIA complexa (Wire Vine) This sprawling component plant has small rounded dark green leaves and wiry twisted stems. A great plant for the edge of a container or spilling down from a hanging basket. It is intriguing and grows well in sun or shade.

NASTURTIUM tropaeolum majus These brightly colored flowers are an essential element of the cottage garden. These cheerful, trailing plants are delightful spilling over walkways and containers. Funnel-shaped flowers make a colorful, peppery addition to salads. All form cascading mounds, 10-12" high, then trailing. Best in full sun to light shade and average to moist soil.

'Alaska Mix' Green and cream variegated foliage sports blooms in gold, orange, and red.

'Baby Rose' 2019 AAS Winner. This new variety is a breakthrough in nasturtium breeding with its very compact habit and much smaller, darker leaves and stunning, very dark, 2" rose prolific bloomer. 7-11"

'Empress of India' Blue-green leaves and vermillion-red blooms. Heirloom.

Annuals

'Jewel Mix' Semi-double blooms in orange, cherry rose, and red.

'Trailing Mix' Flowers in red, rose, orange, and yellow. Perfect for hanging baskets and containers, or even as a ground cover. Will "climb" if tied to upright supports.

'Whirlybird Mix' Cream, tangerine, salmon, gold, mahogany, and scarlet blooms.

NEMESIA fruticans Small, airy, snapdragon-like flowers dangle above glossy green foliage. Full sun to part sun, average soil.

'7th Heaven Mix' A mix of lovely lavender bicolor blossoms that are highly fragrant. Compact and bushy with larger flowers than most. 12-14"

'SunGlo Yellow Bicolor' Large flowers with heartwarming sunshine yellow lower petals, contrast well with the saturated plum upper petals. Highly scented.

sunsatia series 'Blood Orange', boasting hues of orange in each petal, the blooms appear to change color as sunshine reflects off each petal, and 'Lemon', stunning creamy and bright yellow flowers. Semi-trailing, 6-10"

'Blood Orange'

'Lemon'

NICOTIANA A large and varied genus of ornamental tobacco plants with tubular, star-shaped flowers carried above bold, sticky foliage. These tropical looking plants love heat, sun, and moisture.

alata 'Jasmine' White, star shaped tubular flowers open in the early evening, filling the air with warm sweetness. Use in the center of a bed of evening flowers. Self sows, 3-4' tall. Heirloom.

langsдорffii Panicles of lime green, drooping flowers are carried upon upright, branching stems. Very heavy blooming from July until hard frost. 2-3'

perfume series Strongly scented, especially in the evening. Available in a mix, deep purple and white. H 16-20"

'Perfume Deep Purple'

'Perfume Mix'

'Perfume White'

'Starmaker Bright Red' [NEW] A sure hit with its dark red, star-shaped, trumpet flowers. These fragrant trumpet shaped blooms will attract both butterflies and hummingbirds to your garden. H 11-12"

sylvestris Striking candelabrum of pure white, fragrant blooms. The long, tubular flowers dangle in clusters above tall leafy stems. Breathtaking! 5-6', Heirloom.

NIEREMBERGIA repens Upright stems clothed in finely dissected, needle-like foliage. Loads of small, cup-shaped flowers are held in clusters above the foliage. Very heat tolerant, blooming freely all summer. Compact and spreading. Sun to partial shade and average soil. Available as 'Purple Robe' and 'White Robe'. 8".

'Purple Robe'

'White Robe'

NIGELLA damascena 'Persian Oxford Blue' (Love-In-A-Mist) Love-in-a-Mist is an old-fashioned favorite. Airy sky blue flowers float amongst feathery foliage, creating a misty haze treasured in cottage gardens. Flowers mature to papery pods valued in everlasting arrangements. Will re-seed. Full to part sun, average soil. 12-18"

NOLANA Attractive small plants for edging gardens or paths. Their showy flowers are produced in great profusion. Excellent for poor or rocky sites. Characterized by decumbent stems but with the tip ascending and almost erect. Full sun to light shade.

Annuals

humifusa 'Little Bell' Lilac-blue, cup-shaped blooms with a blue throat on thick, glaucous leaves. This little charmer happily carpeted the corner of our herb garden last summer earning it high marks as an annual ground cover. Spreading 12-18", 2-4" height

paradoxa 'Bluebird' True blue, trumpet shaped flowers with white and yellow throats, smile up at you from succulent foliage. The sprawling habit is perfect for containers or beds. The flower closes at night and on cloudy days. 2"h by 12"w.

OREGANO 'Kent Beauty' Scented silvery green foliage against cascading rosy pink bracts creates an elegant display for mixed planters. Combines nicely with pinks and purples. Full sun, average soil. 6"

ORLAYA 'White Lace' This rare, but easy, low-maintenance annual will fill your garden with a sea of large white flowers in umbels above ferny foliage. Similar in appearance to Queen Anne's Lace. Heat and drought tolerant. Full sun. 2'

OSTEOSPERMUM A cool weather annual with showy, daisy-like flowers. Plants flower in spring and fall, but dislike summer's extreme heat. Will give their best performance if deadheaded regularly. Always a favorite here at Andrew's. Full to part sun, average soil. H 8-14"

4-d series This new 4-D Series is a whole new dimension of flowers! Its beautiful true double blooms stay open all day and night. An eye catcher! Offered are 'Berry White', 'Lemon Ice', and 'Violet Ice'.

'4-d Berry White'

'4-d Lemon Ice'

'4-d Violet Ice'

'Blue Eyed Beauty' This flower features a blue disk in the center surrounded by white, pink or yellow radiating petals.

'Blushing Beauty' Golden yellow petals with a sugar pink base. Plants form neat mounds which become smothered in flowers throughout summer and well into autumn. H 10-14"

'Bright Lights Berry Rose' [NEW] Heat tolerant plants with large rosy pink daisy flowers. Mounded habits really hold the flowers up for great flower presence. Continuous bloom or rebloomer, long blooming, deadheading not necessary. H 8-12"

flower power spider series A novelty! Spider-like flowers, available in purple and white.

'Spider Purple'

'Spider White'

serenity series A profusion of bright daisy-like flowers carpet the garden. Excellent for rock gardens and containers. H 10-14". Offered 'Dark Purple' and 'White'.

'Serenity Dark Purple'

'Serenity White'

'Voltage Yellow' Bold colored daisies on well branched, compact plants. Heat tolerant selection which flowers profusely all summer. One of our favorite plants.

OTOCANTHUS 'Caribbean Blue' (Brazilian Snapdragon) If you can't get enough blue in your garden then you may want to consider this plant. Alternate 2-3" long, serrated, deep green leaves below sky blue flowers with white eyes. Never out of bloom, but heaviest flowering begins in mid summer. Full sun, 12-16"

OXALIS (Shamrocks) Accent plants that may also be used as house plants. Self-cleaning plants with a tidy, mounded growth habit. Full to part shade. Moist, well-drained soil. 6-12"

'Charmed Wine' Burgundy foliage on slender, succulent stems sets a dark stage for contrasting pinkish - white flowers.

Annuals

vulcanicola 'Molten Lava' Foliage color defines this cutie. In low light the foliage is chartreuse, however, sunny conditions make for additional bright shades of rich oranges.

OXYPETALUM caeruleum 'Heaven Born' Pale azure-blue star flowers amongst hairy, pointed leaves. Bushy, heavily branched plants flower vigorously all summer. Milkweed like seed pods follow in fall, complete with silky floating seeds which add fun for children and fall interest for the garden. Full sun. 14"

PENTAS lanceolata Pentas is one of the best butterfly-attracting plants around. It blooms all summer, even during the hottest weather, with large clusters of starry blooms that attract butterflies by the dozens as well as hummingbirds. Full sun.

starcluster series Large, vibrant blooms of Lavender, Red, Rose and White. H 14-18"

supertunia hybrids Large flowers and a vigorous sprawling habit make these robust, tireless bloomers ideal for containers or as ground covers. Attractive to hummingbirds and butterflies.

'Bermuda Beach' Lovely salmon-coral flowers are extremely free flowering and self-cleaning. It will spread less vigorously than most supertunias. Drought and heat tolerant. H 5-8", 10-18" spread.

'Cascadia Indian Summer' Large, lightly ruffled blooms of varied shades of yellow to rose to pink, lending a terracotta look. Semi-trailing, 10-18"

'Crazytunia Black Mamba' Pure black, velvety, medium to large blossoms grow in a mounding habit with exceptional heat tolerance, never fading or streaking, even as they age.

'Crazytunia Tiki Torch' [NEW] From semi-upright to semi-trailing, the insanely bright colors and unusual patterns are a kaleidoscope of orange sorbet and cherry swirls.

'Daybreak Charm' Vibrant sunshine yellow and watermelon pink flowers are eye-catching and unique. 8-12"

'Double Midnight Gold' [NEW] This very unique, double flowering petunia has dark purple-black flowers edged in creamy yellow. Great branching with lots of flowers all summer. H 8-10" x 20-26"

'Johnny Flame' This stunning beauty offers rosy-purple blooms with a deeper magenta-purple splash on every petal -- dark, intense, and absolutely irresistible!

'Limoncello' Bushy, compact and free-flowering, with large wavy blooms in an attractive two tone creamy-yellow bicolor, resembling the delicious Italian liqueur.

Annuals

'Night Sky' It produces masses of velvety indigo blue flowers with a host of pure white flecks and spots - just like gazing into a far-away galaxy, reminiscent of the constellations viewed above on a clear night.

'Phantom' Velvety almost black petals, with a striking yellow star center. 8-12"

'Royal Velvet' Fragrant purple flowering petunia will provide brilliant color in baskets, beds, balconies and combo planters. H 10", trails to 48".

'Surfinia Sky Blue' Beautiful blue-lavender flowers bloom all season. Weather resistant. No deadheading required. Grows H 6-10" x 8-12" W

'Sweettunia Fiona Flash' [NEW] Fiery tones in red and pink with a semi-upright habit with tons of flowers all summer with no deadheading. H 8-10"

vista series These petunias are very vigorous, with mounding, 16-24", habits and they are great in large containers, where they function as both fillers and spillers, where they will trail over the edge up to 2' by the end of the season, with medium-sized flowers.

'Bubble Gum' Bubble gum pink flowers, so vigorous and showy that they can be seen from a distant view (vista). In my opinion, the best petunia money can buy!

wave series The most popular of the petunias. Super fast growing, easy to care for, they spread and trail. No deadheading! Superb flower-power and unbeatable weather tolerance.

easy wave series Very similar to original Waves, just taller. Spreading 30-39" wide and 6-12" tall. Available in Blue, Burgundy Velour, Lavender Sky Blue, Neon Rose, Plum Vein, Pink Passion, Red, Rosy Dawn, Violet, White and Yellow.

'Easy Wave Blue'

'Easy Wave Burgundy Velour'

'Easy Wave Lavender Sky Blue'

'Easy Wave Neon Rose'

'Easy Wave Pink Passion'

'Easy Wave Plum Vein'

'Easy Wave Red'

'Easy Wave Rosy Dawn'

'Easy Wave Violet'

'Easy Wave White'

'Easy Wave Yellow'

'Shock Wave Denim' The colors change as the bloom ages creating carpets of lavender, blue, purple, nearly white and every shade in between. Spreading 30-36" wide and 7-10" tall.

'Tidal Wave Cherry' Magenta pink flowers with extra vigorous habit, spreading 30"-60" wide, 16"-22" tall.

'Tidal Wave Red Velour' Tidal Wave Velour Red petunias have masses of 4", dark blood red flowers. Vigorous grower. Height 16-22", 30-60" spread.

PHLOX drummondii Phlox drummondii is an annual phlox that is native to grasslands with many cultivars.

'21st Century Mix' Provides masses of deep blue, crimson and white blooms for a charming border, with tidy 10-12" compact mounds covered in dazzling 1-2" blooms.

'Popstars Mix' [NEW] A fantastic show of single and bi-colored star-shaped flowers. The compact habit ensures good garden performance and amazing flower power. H 10-12"

PHORMIUM tenax 'Purple Mountain' (New Zealand Flax) Graceful dark purple blades. Leaves widen with age and feature an electric blue tinge on the undersides, make a bold upright statement. These evergreen, tender perennials are native to New Zealand and related

Annuals

to Agave and Yucca. No pests bother with its tough foliage. Over winter indoors. Sun to shade, Most grow 2-3' in the first year and another foot or more to reach their mature height.

PHYGELIUS (Cape Fuschia) Native to South Africa, cape fuchsia will add vitality to your plantings with vibrant, showy flowers that bloom for months in summer and fall. Their eye catching funnel shaped flowers are attractive to hummingbirds. Four inch, lance shaped, shiny, dark green leaves give the plant a handsome appearance. Full sun. 18-36"
aequalis

'Devils Tears' Deep red flowers with yellow throats.

'Trewidden Pink' [NEW] Soft pink with darker throat and a yellow lip.

rectus Profuse clusters of fuchsia-like flowers, blooming for months. H 24" x 24" W.

'Moonraker' Pale yellow, four-inch-long flowers dangle all around the stems of this evergreen, fuchsia look-alike.

PLECTRANTHUS We can't say enough about Plectranthus. Its coloring, shape, and habit make it one of the finest accent plants we have ever grown. Sun or shade.

argenteus 'Silver Shield' Velvety-leafed annual with silver-gray color, grown primarily for the foliage. 24-28"

aurea marginata 'Lemon Twist' Scalloped green leaves are edged in chartreuse generating a gorgeous effect. Forms a 12" mound.

coleoides 'White Surf' Fragrant, bright green leaves edged in white with trailing stems up to 2 feet long. A glorious accent plant. 12-16"

'Guacamole' [NEW] Guacamole shows off with bright yellow leaves sporting deep green patches and dark red stems. H 18-24"

'Monas Lavender' Glossy, dark green leaves support a mass of flower spikes in late summer. Rich, lavender flowers are salvia-like and frost tolerant. 12-16"

'Velvet Elvis' Plush, velvety foliage is deep green with a vibrant purple back. Huge flower spikes are twice the size of Mona Lavender and create an amazing floral effect that lasts for months. Blooms September/October. H 28-32"

PLUMBAGO auriculata 'Royal Cape' (cape leadwort) Native to South Africa, when grown in containers in it will grow 1-3' per year. Features clusters of phlox-like clear bright blue flowers with small darker blue star in the center, better color than the species. Water freely and fertilize monthly during the growing season. Full sun.

POPPIES Showy, colorful blooms with papery petals dance upon wiry stems throughout most of the summer. Attractive seed pods add interest in the garden or in arrangements. Plant early in the season while soil is moist and cool. Once established, poppies thrive in hot, sunny, dry locations.

commutatum 'Ladybird' An heirloom favorite and one of the most prolific poppies available, the beautiful 'Ladybird' (a British word for ladybug) is a garden head-turner. Bright red flowers with black spots grows to about 15" tall. Neat foliage bearing 15 or more 3" blooms at a time.

eschscolzia californica (California Poppy) A species native to the United States and Mexico, with showy cup-shaped flowers in brilliant shades of red, orange and yellow. It is also used as food or a garnish.

'Jelly Beans' Famous for intensely vivid colors that please the eye all summer, even in the driest soils. Jelly Beans is a mouth watering mix of large 2" flowers in shades of orange, salmon, rose and gold. H 10"

'Orange King' 'Orange King' is a tall, tangerine Californian poppy with delicate, silvery

Annuals

foliage. Perfect for edging paths, giving a naturalistic feel to any garden. It will self-sow. H 18"

sinaloensis Wonderful purple foliage, bright indigo flowers. 12-16"

skyscraper series These beautiful plants are compact, easy to grow and full of flowers all season long. They make outstanding container plants as well. H 14-28" x 10-16" W. Offered in 'Orange' light orange with golden orange bracts and 'Pink', pink flowers with a "rose gold" calyx.

'Skyscraper Orange'

'Skyscraper Pink'

Annuals

splendens Traditionally grown *Salvia* with large showy flowers

'Lighthouse Red' [NEW] Showy, fire engine red flower spikes. Long lasting blooms are annual favorites of the hummingbirds. Makes an excellent "thriller" in a container garden and the landscape. H 24"

'Red Hot Sally' Fire-engine red. 8-10"

'Van Houttei' Pronounced burgundy calyces and deep rosy red corollas on a floriferous and fast growing plant. Does best in moist soil and partial shade, but tolerates full sun. Premium! 3-4'. Gorgeous late summer into fall.

'Van Houttei Louies Orange Delight' A loud blooming orange *Salvia*! Brilliant orange-red bracts and blossoms, flower from June to frost. H 36-48".

'Van Houttei Paul' Happy in partial shade, this *Salvia* has showy red-purple blossoms and a well-branched, open form. Sun to partial shade. 2'

'Vista Mix' A blend of Pink, red and Purple. Dense flower spikes and foliage hold their color intensity throughout the summer. 2'

uliginosa (Bog Sage) Striking spikes of sky blue flowers carried upon long swaying stems reaching 3-5'. Known as Bog Sage because of its liking for moist soil, withstands heat and humidity quite well. Breathtaking for the back border.

wishes collection Free-flowering salvias with irresistible color, no pruning necessary.

'Embers Wish' 'Ember's Wish' has coral blossoms, maroon stems and rusty rose calyces. Long lasting color! 2-3'.

'Love and Wishes' Deep magenta-purple tubular blossoms contrast handsomely with dark stems. H 3-4' x 3' W.

'Wendys Wish' Large, hot pink tubular blooms, complimented by dark green leaves and maroon stems. Stunning! H 3' x 3' W.

x. 'Indigo Spires' Deep purple spikes reaching 12-18" in length. Stunning in borders or large containers. A wonderful cut flower for large bouquets. 3-5'

x. 'Roman Red' [NEW] Pump up the drama with 'Roman Red's vibrant 6" spikes on hardy 28-34" bushes. Vivid red-scarlet blooms soar above contrasting wine-purple sepals. Sun or partial shade.

x. 'Silkes Dream' Spikes of salmon-pink flowers arrive on sturdy stems all season. Superb Hummingbird Magnet! 16-28"

SANVITALIA procumbens Creeping Zinnia is a short, sprawling plant whose flowers resemble miniature versions of Black-eyed Susans and are borne in great profusion on trailing hairy stems. Drought tolerant and virtually maintenance free. Looks great tumbling out of window boxes and sprawling in the front border. Full sun

'Mandarin Orange' Orange, double flowers with a contrasting dark center. 6"

'Sunbini' Half-inch dark yellow orange flowers all summer. 6-10"

SCAEVOLA aemula (Fan Flower) Low sprawling mounds decorated with large and substantial fan-shaped blooms over dark green, fleshy foliage. Fantastic in hanging baskets, large containers or right in the ground. Quite heat tolerant, yet a heavy drinker. 4-9" height, 18-24" spread. Full to part sun.

'Scampi Blue' Blue flowers with green eyes from mid spring to late summer. Thrives in hanging baskets and window boxes. H 6" x 24" W

surdiva series Highly-branched with large-flowers. Offered in 'Blue-Violet', 'Pink Fashion' and 'White'. H 6-8" x 18" W

'Surdiva Blue-Violet'

'Surdiva Pink Fashion'

Annuals

'Surdiva White'

SENECIO candicans Traditional silver foliage accent plants that endure hot, dry conditions. Serrated silver leaves add texture and contrast in the garden. Cold hardy annuals last late in the fall. Full to part sun, average soil.

'Crushed Velvet' Adding a plush look to the landscape with its velvety silver leaves that arch to give a vase shape habit. Will grow 12 to 16" with a 6 to 8" spread.

SETCREASEA pallida 'Purple Queen' An outstanding color and texture plant. This exceptional foliage plant has thick, narrow, up to 7" long deep purple leaves and pink flowers. Very easy to grow with excellent weather tolerance. Sun to part shade, H 6-12" x 1-3' W.

SNAPDRAGON antirrhinum majus Prized garden plants because of their brightly colored flowers and long blooming season. Terminal racemes of two-lipped flowers upon upright stems in an endless range of colors and heights. Very frost resistant. Attractive to hummingbirds. Great cut flower. Full to part sun.

'Black Prince' Lush dark crimson blooms set against super dark foliage. Breathtaking! 18-22", Heirloom

'Snapshot Berries and Cream'

'Snapshot Mix'

'Snapshot Sunset'

'Snapshot Yellow'

'Snapstastic Mix' This mix has larger flowers and has longer lasting color. Colors include, pink, magenta, orange flame, red and yellow. H 14-16"

'Twinny Peach' A 2010 All American Winner. Double flowers in the most distinct blended shade of peach, yellow and light orange. 8-11"

STOCK 'Vintage Mix' The dwarf, well-branched plants produce lasting flowers, with a delightful fragrance. Colors consist of pink, rose, violet, yellow and a white. These cool weather loving plants bloom profusely in the spring and autumn, resting in the heat of summer. Sun. 10-16"

STREPTOCARPUS ladyslipper series (Cape Primrose) [NEW] A relative of the African Violet, it is a compact plant that will bloom nearly all year long if you remove the fading flowers before they turn to seeds. Can grow up to 12" tall and produce 2" wide trumpet like blooms. Likes medium indirect light, prefer cooler temps, a ideal house plant. Offered in 'Blue Vein', 'Red Bi-color' and 'Grape Ice'.

'Ladyslipper Deep Blue Vein' [NEW]

'Ladyslipper Grape Ice' [NEW]

'Ladyslipper Red Bicolor' [NEW]

STROBILANTHES 'Persian Shield' Leaves are a rich purple, veined and edged in dark,

Annuals

bronze-green. Silver-leaved and pink flowering plants really bring out its coloring. Partial shade to shade as full sun bleaches its leaf color. Thrives in hot, humid weather. 1', Heirloom

SUCCULENTS This group of easy to grow, forgiving plants are bound to enchant you with their unusual colors, textures, growing habits, and extraordinary flowers. Succulents prefer smaller pots, as too much root room can deplete their energy with only root growth. Keep them snug and they'll keep you happy; mixed containers of succulents create magical displays. Grow in full sun and keep on the dry side.

AEONIUM Succulents that resemble Hens and Chicks. Great for rock garden or troughs. Requires little care, full sun and very dry, well drained soil.

arboreum 'Zwartkop' [NEW] Award winning succulent with large rosettes of glossy, fleshy, dark burgundy leaves. In full sun the foliage is almost black adding drama and interest to succulent arrangements.

'Kiwi' Colorful rosettes of fleshy leaves colored in pink, pale yellow and green with each leaf edged in red. Small yellow flowers. 10-12"

ALOE A rosette of long fleshy spears which are filled with a mucilaginous gel. Prefers full sun to partial shade and well-drained soil.

'Absolutely Aloe Collection' This collection offers six assorted Aloe varieties from the following: vera, miniformis 'austera', gariensis, dichotoma, broomii, ferox, variegata and peglarae.

broomii [NEW]

variegata [NEW]

vera

ANACAMPSEROS rufescens Olive green, narrow, pointed leaves arranged in a spiraling rosette. In the partial shade the leaves are olive green, while in sunlight the leaves are a dark reddish-brown to purple. Pink flowers. H 3" x 4" W

CRASSULA Crassula including Jade Plants, are popular tender succulents with a great diversity of forms and colors.

capitella Bright, green, pointed foliage turns reddish-orange at the tips. H 12"

ovata 'Gollum' A mutated form of Jade. Tubular leaves have red tinged suction cup like tips. Star shaped white flowers. H over 12"

perforata 'Variegata' (String of Buttons) [NEW] One of the best-loved stacked Crassula species with alternating, triangular leaves of pale green and cream variegation.

picturata 'Tiger Jade' [NEW] A little succulent with small, shield-shaped leaves of grey-green. Each leaf is spotted with a contrasting darker blue-green and perfectly edged with dots. Blooms start as red buds then open to pale pink and white.

ECHEVERIA 'Exclusive Collection' (Mexican Hens and Chicks) [NEW] All Echeveria grow in a rosette on short stems. They grow quickly. In fact, this succulent house plant produces offsets -- called chicks -- in abundance. If they get too crowded in their pot, cut them off and propagate them. Give these beauties a try!

'Asante Sana' [NEW]

'Jasiri' [NEW]

'Perle Von Numberg' Lovely rosettes glazed with translucent pink and purple.

Annuals

'Purple Perle von Numberg' [NEW]

EUPHORBIA ferox [NEW] This fierce Euphorbia has extra thick, sharp, purple thorns and should be handled with care. It grows wild in South Africa and is extremely drought tolerant. Keep this spiky wonder in bright sunlight and it will produce clusters of offsets around its base.

GRAPTOVERIA 'Debbie' Beautiful thick-leaved plush rosettes of dusty blue-gray have pink leaves. Classic hybrid that should be in every succulent collection. 4"

HAWORTHIA reinwardii [NEW] Slow growing, clumping, columnar rosettes. Great for miniature gardens. 4-6"

KALANCHOE houghtonii (Mother of Millions) [NEW] The look has green leaves that are large and have baby plantlets on the edges. The plantlets grow rapidly, anywhere they land on, they can grow.

KALANCHOE laciae (Flapjack) Likened to clam shells because of the shape of the thick 4-6" long by 2-5" wide rounded leaves. The leaves are covered with a gray bloom and take on a reddish hue during cooler winter months if grown in bright light otherwise the leaves remain uniformly green.

PACHYVERIA glauca 'Little Jewel' [NEW] Tapered leaves of dusky, powdery blue with reddish tints at the tips. Leaves actually look like jewels. H 3-4"

SEDEVERIA 'Blue Burrito' [NEW] Blue rosettes with leaves that come to a soft point. Forms clusters easily, and will trail over the side of a pot.

SEDUM Noted for its bright gold foliage, forming a tiny-leaved, dense mat growing to only 2" high and creeping to 12" wide or more. Tiny, star-like, yellow-green flowers appear in summer.

lineare [NEW] Sedum lineare is a mat-forming evergreen stonecrop that is native to eastern Asia. It typically grows to 4-6" tall but spreads by erect stems to 12" or more wide.

makinoi 'Ogon' This tiny leaved sedum is noted for its bright gold foliage. H 2"

SUNFLOWERS helianthus annuus No garden should be without the cheery beauty of a Sunflower. Loved by children and goldfinches. Because of their large roots and long stems, sunflowers are heavy feeders and grow best in nutrient-rich soil. Offered are 12 different varieties : some tall, short and many different colors. Full sun.

'Autumn Beauty' Reminiscent of fall leaves. Bold, beautiful flowers up to 8" across. Bright yellow, bronze, and purple shades with some bi-colors. Multi-branching; produces many long stems. Ht. 60".

'Firecracker' Dwarf plants, loaded with bicolor red and gold flowers. 24-36"

'Giant Teddy Bear' [NEW] Giant Teddy Bear Sunflowers are a big hit with gardeners! Easy to grow, these fluffy headed beauties will reach nearly 6 feet tall!

'Italian White' An heirloom variety with creamy yellow 3"-4" flower heads. 4-5'

'Red Hedge' Darkest red with long lasting blooms and wild look. 4-5" flowers with petals that are rounder and darker than Chocolate. 48-58".

'Solar Power' Intense blooms with petals that go from deep maroon to orange tipped. One stalk produces numerous branches that bear pollenless, 4-6" flowers. Grows 6-8' tall.

'Soraya' Rich orange petals surround brown centers. Large flowers, heavy flower production, very sturdy stems, and well branched plants, made this one a AAS winner for 2000. 5-6'

'Starburst Lemon Aura' Fantastic, crested, fully double, lemon yellow flowers (7-8") with a green center and multi-branching stems, giving lots of gorgeous cut flowers. POLLEN FREE too - so no mess when brought indoors. H 4-6'.

Annuals

'Starburst Panache' Provides us with very uniform orange flowers with semi-double petals. Loaded with flowers due to its branching habit. Darker flower centers . 4-6'

'Sun Buzz' [NEW] Meet the pot sunflower they'll want again and again. SunBuzz keeps pumping out more blooms, thanks to the big show of secondary flowers. H 12-20"

'Suncredible Yellow' (Everblooming Bush Sunflower) [NEW] This everblooming sunflower is built on a well branched bush-like habit that is perfect for the back of the bed, as an annual screen or along a fence. The blooms are about 4" across and do not need to be deadheaded to continue blooming, but can be groomed for tidiness. This plant blooms several weeks longer than similar sunflowers due to its semi indeterminate to determinate habit. Great for pollinators and will pump blooms all season and well into the fall for a great seasonal pop of color. H 24 - 42 inches X 20 - 32 inches

'Suntastic Yellow' A long-blooming petite charmer. This is the most floriferous dwarf sunflower to date, bearing up to 20 flowers on plants only 20 inches tall. The 5 to 6 inch blooms are cheerful golden-yellow with black centers.

TIBOUCHINA grandifolia (Glory Bush) Large deep purple flowers adorn this tall, tropical shrub with soft, greyish green foliage. Growing this plant in a container seems to force it into blooming earlier than it would if planted in the ground. Loves heat and full sun!! If you have the space it can be overwintered inside beside a sunny window. 3-5' in containers, slightly taller in the ground.

TITHONIA rotundifolia 'Red Torch' (Mexican Sunflower) Planted in a group, these large, bushy plants create a dense hedge of greenery. Brilliant orange-red color resembling single dahlias. Lovely accent among tall perennials as well. 3-6', Full sun

TORENIA fournieri (Wishbone Flower) A great shade performer! The Wishbone Flower is an exotic looking leafy plant with small, dark green leaves and a plethora of lipped blooms, each with a wishbone-shaped marking. Flowers are reminiscent of snapdragon florets. Low maintenance plants that are self cleaning; that's right, no deadheading! Does best in consistently moist, well-drained soil and partial to full shade.

catalina series Compact plants with an upright, mounding growth habits. Available as 'Pink', rose with shell pink overtones and a buttery yellow flare, and 'White Linen', white with a soft yellow center. H 6-10", spread 10-12".

'Catalina Pink'

'Catalina White Linen'

moon series Terrific fast growing, long blooming trailing plants. Offered in 3 lovely colors, 'Purple', dark violet, blue, 'Magenta', apricot and magenta with a dark magenta eye and 'Yellow', yellow petals and a violet throat. H 6", spread 12".

'Magenta Moon' Rosy magenta lover petals, rosy apricot upper petals, and burgundy centers over densely branched shiny plants.

'Purple Moon' Masses of large dark violet flowers.

'Yellow Moon' Sunny yellow with a purple eye.

TRACHELIUM caeruleum 'Lake Michigan Blue' Dense clusters of tiny bluish blooms rise above bushy mounds of long, toothed leaves. A unique plant for the border. A ravishing cut flower, often used as a filler. Can be dried, too! H 30-40"

TRADESCANTIA zebrina 'Zebra Stripes Collection' [NEW] Trailing foliage accent plant for sun or shade. Works great in mixed planters, hanging baskets and as a ground cover.

'Rainbow Zebra' [NEW]

Long blooming light, periwinkle blue, star-shaped flowers. H 24-30"

x. **'Blue Ice'** Dark blue buds and blooms decorate your garden for 5+ weeks in late spring. Foliage forms a dense, compact mound and turns a brilliant yellow in the fall. H 12-15", Zone 5-9

ANEMONE (Windflower) A large genus consisting of the Fall blooming Japanese Anemones and the Spring bloomers that are native to North America. All have mounds of lovely foliage. All prefer rich, moist, well-drained soil in full sun to part shade. Most prefer to be shaded from the midday sun. Zone 5-8.

fantasy series [NEW] These beautiful, compact gems are a "must see for yourself".

'Pocahontas', produces double pink blooms, 'Jasmine', single pink flowers and 'Red Riding Hood', rosy-red blooms from July to September that are on tough, sturdy stems. H 12-18".

'Fantasy Jasmine' [NEW]

'Fantasy Pocahontas' [NEW]

'Fantasy Red Riding Hood' [NEW]

x. **'Fall in Love Sweetly'** When other plants in your garden are fading, FALL IN LOVE™ 'Sweetly' is just getting started, producing rich, semi-double, rose pink flowers. H 20-26"

x. **'Whirlwind'** [NEW] A lovely Japanese Anemone which displays pure white, semi-double blossoms in late Summer-Fall. H 3-4'.

ANGELICA gigas This is a unique, bold-leaved plant, excellent for specimen effect. A bushy, upright clump of coarse green leaves, bearing huge umbrella-like heads of crimson-red flowers in late summer. A self-seeding biennial. This is NOT the species of Angelica used for its edible stems. Partial sun, H 3-6', Zone 4-9.

AQUILEGIA (Columbine) Columbines are delicate, clump-forming plants which bloom in early summer and are charming in bouquets. All have beautiful foliage and uniquely shaped blooms. They thrive in sun or partial shade and a well-drained soil. Some reseed easily. Zone 3-8.

songbird series Eye Catching! An abundance of deep-colored flowers that are long lasting. 3 1/2" blossoms face skyward rather than nodding as with other columbines. Available as 'Blue Jay', an intense shade of blue with white centers, 'Cardinal', rosy red and white and 'Goldfinch', clear yellow. H 18-24".

'Songbird Blue Jay'

'Songbird Cardinal'

'Songbird Goldfinch'

ARALIA cordata 'Sun King' (Golden Japanese Spikenard) This tropical looking beauty

Perennials

brightens up the shade garden with its very large, bright gold leaves. With a few hours of sun, the foliage remains bright gold through the summer, the clumps are topped with 2' tall spikes of tiny white flowers which give way to purple-black berries in fall. 3', blooms mid-late summer, partial shade in average soil. Zone 3-9.

ARTEMISIA schmidtiana 'Silver Mound' An classic indispensable garden plant grown for its silvery, often aromatic, foliage. Prefer full sun and dry. Mounded, 8-10". Zone 4-8

ARUNCUS (Goatsbeard) Handsome plants exhibiting thick, leafy mounds of foliage and graceful, creamy white plumes. Stunning reflected in a waterside landscape. A choice plant for a moist, openly shaded garden. May be grown in sunnier locations provided there is adequate moisture. June-July. Native to North America. Zone 3-9

x. 'Chantilly Lace' Flower power! 'Chantilly Lace' forms a mound of dissected foliage that is crowned in early summer with billowing sprays of creamy-white flowers that nearly hide the leaves! H 30-32".

ASCLEPIAS tuberosa (Butterfly Weed) Tight clusters of bright-orange, starry flowers. Very drought tolerant. Slim, decorative pods form later, filled with papery seeds. H 24", Zone 4-9

ASTILBE (Plume Flower) Very hardy, showy, plume-like flowers on attractive, often glossy foliage. They love rich, deep, moist soil in partial shade, but will grow in sunny sites where the soil really holds moisture or has irrigation. Rabbit and deer resistant.

arendsii A cultivar group of complex hybrids with *A. astilboides*, *chinensis*, *japonica*, *thunbergii* and others. Zone 4-8.

'Chocolate Shogun' Incredible dark glossy, chocolate-purple lacy foliage is the deepest darkest foliage color by far in an Astilbe. Blooms of soft pink appear in late summer to about 2 feet tall.

'Look At Me' A Dwarf Habit! Sweet bubblegum pink flowers on shocking red stems. Very compact. Flowers early to mid-summer. 15-17", Zone 3-9.

chinensis Chinese Astilbes produce dense, erect plumes. Tough plants which prefer moist soils but will tolerate slightly drier soil than other Astilbes. Zone 3-8

'Lowlands Ruby Red' Dense plume-like panicles of deep red. Blooms mid-season. H 20-24"

'Mighty Chocolate Cherry' Robust, strong velvety-red flower spikes, divided dark green and chocolate brown to reddish foliage. H 45"

'Mighty Pip' Strong, robust spikes of graceful extremely large salmon-pink plumes. Late season. 45"

'Mighty Red Quin' Huge Astilbe with 4' towering red flower plumes. Foliage starts red, brown to then turn green. Robust grower. Blooms summer/late summer. H 48-50"

japonica Large airy flower clusters that are not as dense but make up for it in volume. Bright colors and glossy leaves. Zone 4-8.

x. younique series This series offers a more compact, rounded habit with very vibrant color. These plants produce double the amount of dense flower scapes. Offered in 'Salmon' and 'White'. H 12-18".

'Younique Salmon'

'Younique White'

ASTRANTIA major 'Star of Beauty' (Masterwort) [NEW] Charming cottage garden plants that make excellent, long lasting cut flowers. White with magenta tipped pincushion flowers surrounded by a ruff of greenish-pink bracts. Height 20 to 30", Prefers partial shade

Perennials

and rich moist soil. Long flowering season.

BAPTISIA (False Indigo) Native to North America, False Indigos are wonderful, long-lived perennials with gorgeous pea-like blooms, followed by attractive seed pods. The lovely textured, bluish-green foliage forms large, bushy clumps. Superb cut flower and cut foliage. Prefers full sun and well-drained soil.

decadence series This series has a shorter, more compact habit and unique flower colors. This variety forms an upright, vase-shaped mound of attractive blue-green foliage. Late Spring thru early Summer. Zone 4-9

'Cherries Jubilee' Unique flower color: Deep maroon opens to bicolor maroon and yellow flowers. 24-36"

'Lemon Meringue' Amazing long charcoal buds and lemon yellow flowers. This color really pops! 3'

'Pink Lemonade' Unique bi-color flower spikes, the first bi-color of the series. In late spring, soft yellow flowers age to dusty raspberry purple, and both colors appear on the stem at the same time. Charcoal stems really make the colors pop. H 3.5-4'.

'Pink Truffles' Clear soft pink blossoms with a pale yellow keel are produced in late spring, the perfect compliment to other spring bloomers. Its compact, shorter habit makes it easy to fit into any garden. H 2.5-3'.

'Vanilla Cream' The pure white flowers dance in the breeze late spring to early summer. H 36".

BLETILLA 'Brigantes' (Hardy Ground Orchid) [NEW] A vigorous plant producing 28" tall pleated green foliage. Towering above the foliage are the 40" tall flower stalks, adorned with lovely light lavender flowers. Sun to part sun. Zone 6

BRUNNERA macrophylla (Siberian Bugloss) This perennial Forget-Me-Not has small but strikingly gorgeous, true blue flowers held on slender stems above heart-shaped leaves. Prefers part to full shade and moist soil. May-June. Zone 4-9

'Alexanders Great' A superb specimen perennial, forming a gigantic mound of very large, heart-shaped, heavily silvered leaves. This selection makes a dynamic statement in the woodland garden. H 10-14", spread 24".

'Dianes Gold' Worth her weight in gold, 'Diane's Gold' retains its crisp chartreuse golden foliage all summer. Sky-blue flowers. in spring. Adds pizzazz to your shady garden. H Short-12"

'Jack Frost' Big, heart shaped leaves are gorgeous, rich silver with dark veination. Vibrant, sky blue forget-me-not flowers are prolific in spring. H 10"

species Heart shaped leaves with true blue flowers. H 10-12"

'Black Knight' Deep purple fragrant flowers. 5'-7'

'Buzz Collection' World's first patio Buddleia. These attractive compact plants will not take over the garden. Easy to grow, problem-free, super-long flowering period. Perfectly proportioned for patio pots and smaller gardens. H 4'

'Buzz Hot Raspberry'

'Buzz Magenta'

'Buzz Sky Blue'

'Grand Cascade' Unlike the typical Butterfly Bush, the panicles on this flowering shrub

Perennials

cascade downward, light lavender purple flower panicles are enormous at 12-14" long and 4" thick. They're nearly the size of your head! H 5.5 to 6'

'Nanho Blue' Fragrant, arching clusters of really long, violet-blue flowers on this compact selection. H 3-5'

'Prince Charming' Bright raspberry pink colored blossoms are 10" in length making them an absolute stunner. H 4'

CALAMINTHA (Calamint) An ornamental mint which is non-invasive. Beautiful and aromatic for the front of the border. Drought tolerant. Full sun to part shade. Average to well drained soil. Zone 4-9

grandiflora This ornamental mint is a long bloomer with rosy pink flowers. Its foliage looks nice all season. 12-18"

x. 'Montrose White' This is a sterile selection with a nice uniform, clumping habit. It is covered with white flowers from June to October over mint scented foliage. No deadheading needed, it is self cleaning. Grows 1'

CAMPANULA (Bellflower) A large genus varying from low-growing mounds to tall stately specimens. Bellflowers prefer full sun to partial shade and moderately rich, moist, well-drained soil. July-August.

persicifolia takion series (Peach-leaf Bellflower) Super compact with large abundant blooms that face upward and outward rather than downward as most varieties of this plant do. Small enough for containers, very strong stems. H 16-20", Zone 3-9

'Takion Blue'

'Takion White'

x. 'Dicksons Gold' Bright gold foliage forms a low growing, dense, weed-suppressing clump. A profusion of lavender blue star-shaped flowers provide striking contrast. H 4-6", Zone 5-7

CENTAUREA montana (Mountain Bluets) [NEW] An old fashioned favorite with feathery, true blue, thistle-like flowers and a heavenly sweet scent. Never bothered by pest or disease! Prefers full sun and dry alkaline soil. H 12-16", Zone 3-9

CHRYSANTHEMUM This is a genus of about 20 species of upright bushy perennials, grown primarily for their showy flowerheads which consist of ray florets in a variety of colors and different forms. They enjoy full sun and average garden soil.

superbum leucanthemum (Shasta Daisies) Robust, clump forming perennial with inversely lance-shaped, toothed, glossy, dark green basal leaves. Zone 5-9, unless otherwise noted.

'Banana Cream' Lemon yellow flowers aging to buttery yellow. June-August, 15-18"

'Daisy May' Here is an easy, fast growing, and fun perennial, with a long bloom time, and showcasing clean 2 1/2 to 3" white flowers. Blooms all summer with faithful deadheading. H 12-24"

'Spoonful of Sugar' Huge, 4 1/2" double rowed, creamy white blooms with a bright yellow eye smother the deep green foliage during the heat of summer. Loved for its compact, dome-like habit in the garden. H 16-18".

'White Mountain' Beautiful large daisy flower with a yellow center and long white petals that bloom on strong, sturdy stems. H 2-3'

CIMICIFUGA (Black Snakeroot) Tall racemes of tiny flowers tower over fine foliage. Good for cutting. Interesting as a specimen plant and beautiful in masses. Prefers partial shade and moist, well-drained soil high in organic matter. Zones 4-8.

racemosa species (Bugbane) Native Eastern wildflower with deeply cut foliage and long, fragrant, ivory flower racemes. July-Aug. H 3-5'

Perennials

x 'Chocoholic' A shorter *Cimicifuga* with dark chocolate-brown foliage all season. Spikes of pink tinged white flowers open in August and have a sweet fragrance. H 2-3'.

CONVALLARIA majalis (Lily-of-the-Valley) Woodland ground cover which spreads quickly. Sweetly fragrant, white, bell-shaped flowers cover dark green elliptic foliage. Root stalks and berries are poisonous. Can be invasive under ideal conditions. Prefers part shade to shade and moist soils. May-June, H 6-8". Zone 3-8

COREOPSIS (Tickseed) Well known perennials with pinnately lobed foliage absolutely covered with bright daisies. Tickseed is easy to grow and have a long bloom time. Ideal for the low-maintenance garden. Attracts butterflies. Prefers full sun and average to poor, well-drained soil. Most zone 5-9.

auriculata 'Elfin Gold' (Mouse Ear Coreopsis) Very low growing with single, bright golden yellow, daisy-like flowers and small leaves. Over time it spreads by stolons into mats of dark green foliage, 18-24" across. H 6-8", Zone 4-9.

'Big Bang Full Moon' [NEW] An extremely floriferous, very long blooming selection that is a dynamo in the landscape. Bright canary yellow, 2-3" flowers are carried on well-branched stems for several months. Tickseed. H 18-24".

lil bang series If you love the "Big Bang Series" of coreopsis but are looking for a smaller plant that grows only a foot wide, this series is for you! Naturally compact, great disease resistance and long bloom time. From Master hybridizer Darrell Probst, the flowers are sterile, therefore they just keep coming all season long without the need for deadheading. Tickseed. H 8-12"

'Enchanted Eve' [NEW] Finely sculpted golden-yellow flowers with 'pinked' edges splashed with red-orange.

'Red Elf' Deep burgundy red, sterile blossoms are produced atop a more compact clump of disease resistant foliage all season. Blossoms have a lightly frosted white tips in high summer.

'Starlight' [NEW] Large, sterile, white flowers with a burgundy eye are produced all season, eye expands in cooler weather. Naturally compact.

satins and lace series A new series of tickseed type that are more cold tolerant and have sterile flowers, they will not reseed around the garden. They form a sturdy, upright clump and bloom for months. Highly mildew resistant selections by Darrell Probst with vibrant two tone flowers, bushy, compact and long flowering. 15-18", Zone 4-9

'Berry Chiffon' White flowers with a large, vibrant raspberry eye. The raspberry color expands to almost cover the surface in cooler temperatures.

'Red Chiffon' 'Red Chiffon' starts pale yellow with a vivid red eye that expands late in the season until the flower is red with light petal tips.

x. 'Limoncello Golden' [NEW] Single golden yellow flowers. Blooms from Spring through Summer. Upright, semi-mounding habit. H 12-18"

x. 'Sienna Sunset' Burnt sienna colored flowers aging to deep orange. Threadleaf. June-Oct. H 16-20"

CORYDALIS lutea A relative of *Dicentra*, *Corydalis* is an exceptional garden addition for a partially shaded site. Delicate, leafy foliage of cool blue to pale green sets the stage for loads of uniquely shaped, almost tubular, yellow blooms. Part shade to shade. Rich, moist soil. H 8-12", Zone 5-9

CRAMBE cordifolia Notable in stature, forming a giant mound and producing a profusion of airy white flowers on tall stems in late Spring to early Summer. Prefers well drained soil in full sun. H 5-7'x 3'W, Zone 5-8

Perennials

CROCOSMIA 'Lucifer' Small, trumpet-shaped, scarlet flowers on handsome, sword-like foliage. Exceptional cut flower!! Needs sun and well drained soil. Tender, so mulch well over winter. 2-4', July-August. Zone 5/6.

DELOSPERMA (Hardy Ice Plant) Bright little daisies adorn glossy, rounded, succulent foliage. A cheerful ground cover or edging plant for hot, dry spots. Borderline hardy so provide good drainage and mulch in winter. Full sun, well-drained soil. Summer. Zone 4/5-8
'Fire Spinner' A striking color combination of orange on the petal edges and red to pink towards the center; flowers are massed in spring and appear periodically through summer. The apple green foliage makes a glistening, fast spreading carpet that maintains its presence through winter. H 2"

jewel of the desert series Flowers from Spring until frost, longer than the typical ice plant, very compact series, 4 to 6" tall and 4 to 8" spread. Also, very winter-hardy and drought resistant. Available as 'Garnet', bright red, with a yellow center and 'Grenade', orange petals with a red center.

'Jewel of the Desert Garnet'

'Jewel of the Desert Grenadine'

DELPHINIUM Spectacular plant with elegant and very dignified looking flowers. They derive their name from the Greek delphin, meaning dolphins, which the buds were thought to look like. Primary bloom is mid June to early July, with a lighter rebloom from September to October. They like well-drained, moist, slightly alkaline soil and a cool site, such as one receiving morning sun. Zone 4-7

belladonna 'Bellamosum' Sturdy and graceful species selection with bright dark blue flowers, 2-3', June.

elatum 'New Millennium Series' Magnificently full blossoms, stable and strong flower stalks, vigorous growth, very good winter hardiness, tolerates warmer and humid climates. 4-6' flower height.

'Blue Lace' True sky blue with lavender-pink accents.

'Cobalt Dreams' New selection produces strong, tall spires tightly packed with cobalt blue florets with white central bees. Stunning alone or several!!

'Pagan Purples' Double rich blue-purple with small brown and white bee.

'Pink Punch' Likely the deepest pink delphinium available today. 'Pink Punch' bears strong, broad spikes of rich mulberry pink, often with a white, brown or pink bee.

elatum 'Pacific Giant Series' Tall stately spikes in beautiful blending hues. 4-6' flower height. Needs staking.

'Black Knight' Dark Violet

'Blue Bird' Clear blue with white bee.

'Galahad' Pure white flowers with white centers.

'Guinevere' Light lavender-pink with white bee.

'King Arthur' Violet with large white bee.

'Summer Skies' Immense, graceful light to medium blue spikes with a white bee.

DIANTHUS A large genus including carnations, pinks, and Sweet Williams. Great for massing in perennial borders and for cut flowers. Prefer full sun and alkaline well-drained soil. Add lime yearly. Zone 5-9, unless otherwise noted.

scent first series [NEW] 'Coral Reef' has double coral-pink petals with elegant white picotee edges. 'Coconut Surprise' has crisp white frilly blooms with a deep red center. Both with grey-blue foliage and a delightful spicy fragrance. H 6-8"

'Coral Reef' [NEW]

Perennials

x. 'Fruit Punch Sweetie Pie' Exceptionally large, fragrant 1 1/2 inch blooms are fully double and a bright pink color that fades to pale pink as the flowers age. This long season bloomer stands 10" tall and 12-14" wide. Zone 4-9

x. 'Vivid Bright Lights' [NEW] Absolutely vivid and bright! A stellar rebloomer, this small but mighty charmer delivers high-impact bright pink color late spring to fall. Fragrant flowers with deeply serrated petals shine against bluish-gray foliage mounds. H 8"

DICENTRA (Bleeding Heart) Known for their lovely sprays of pendant, heart-shaped flowers and fern-like foliage. Bleeding Hearts prefer a rich, well-drained soil and partial shade. Zone 4-9

formosa 'Aurora' This fern-leaf bleeding heart bears large clusters of white, heart-shaped flowers on 14" stems, blooming prolifically in late spring and continues through summer.

x. 'Luxuriant' (Fern Leaf) Cross between *D. eximia* and *D. formosa*. Finely cut foliage on compact plants looks good all season. Long blooming cherry red blossoms, from mid spring thru fall. This variety is most tolerant of the sun, drought and hot weather. H 1-1.5'

DIGITALIS (Foxglove) A cottage garden favorite. Tall spires of unusual blossoms create a showy display. Cutting encourages side shoots. Prefers partial shade and decent soil. Blooms June-July, Zone 4-8

purpurea A biennial which self-seeds freely. Tall spires of unusual blossoms create a showy display. June-July

camelot series Showy trumpets with maroon freckled throats. Available in Lavender and Cream. May-July. H 3-4'.

'Camelot Cream'

'Camelot Lavender'

dalmation series Two awesome varieties, 'Peach', soft apricot flowered blooms delicately spotted with yellow cream markings, and 'Purple', spikes of deep, lavender-purple bells each spotted inside with maroon purple. These foxgloves produce well branched, compact, dwarf plants that flower their first year from sowing. H 16-20"

'Dalmation Peach'

'Dalmation Purple'

x. 'Arctic Fox Rose' [NEW] 'Arctic Fox Rose' produces rose-pink flowers, with maroon purple inside the blooms yearly, instead of biennially, like other foxgloves. Blooms late spring to late summer. H 18-24", very winter hardy, Zone 5-9

ECHINACEA (Coneflower) Coneflowers are native North American wild flowers with lance shaped leaves and daisy-like flowers. An excellent cut flower and butterfly attractant. Prefers full to half day sun and well-drained soil. Mid to late summer blooms. Jacqui has gone coneflower crazy- you might think it is her favorite perennial! Zone 4-8, unless otherwise noted.

'Magnus Superior' Deep rose, non-drooping flowers on sturdy stems. Rounded, bronze discs. A quintessential cultivar. 3-4', Zone 3-8

'Pow Wow White' Pure white, 3-4" flowers with a golden yellow cone have wide, overlapping, reflexed petals. They are produced prolifically on stiff, well-branched stems over many weeks. 18-24", Zone 3-8

'Pow Wow Wild Berry' AAS Winner. Unique, 3-4" intense rose flowers with dark rose centers. Very floriferous! 16-24"

ECHNIOPS (Globe Thistle) Toothed, prickly thistle-like leaves and spiny, intensely dark blue globe shaped flowers. The gorgeous flowers are excellent for cutting and drying. Needs

Perennials

good drainage to survive the winter. Prefers full sun and dry, well-drained soil. July-mid August. Zone 3-8

bannaticus 'Blue Glow' Beginning in early summer, intense blue spheres measuring 1.5" across appear on tall, unbranched stems. H 2-4'

ritro 'Veitchs Blue' A clump-forming plant with golf ball sized, 1-2", dark blue thistle-like flower heads atop stiff stems with deeply lobed, dark green, thistle-like foliage. H 30-36"

EUPHORBIA polychroma (Cushion Spurge) A very variable Genus of plants (the 4th largest), consisting of 1000's of varieties.. Very drought tolerant, most have a milky poisonous sap. Zone 3-8

species A rugged species of plants with attractive foliage and plenty of sulfur yellow bracts to light up the plants in early spring to early summer. H 12-18"

FERNS Ferns reproduce via spores and have neither seeds nor flowers. All Ferns listed prefer partial to full shade and rich, moist soils high in organic matter unless otherwise stated.

ATHYRIUM (Lady Fern) This genus contains some of most popular deciduous ferns.

filix-femina A large feathery species of native fern valued for its tough, easy to care for nature. They are some of the most beautiful ferns you will find. Zone 4-8

'Branford Rambler' A spreading form with dark green fronds with a hint of red. Spreads from runner growth. Early to emerge in spring. 1-2'

'Dres Dagger' Attractive dark green fronds are crested with crispy dagger-like tips arranged in a criss-cross pattern. Typical clump grows to only 18" tall and as wide.

niponicum A species valued for its colorful cultivars. Most display their best color when exposed to direct sunlight. Zone 4-8

'Godzilla' (Godzilla Painted Fern) Larger and more vigorous than A.'Pictum', 'Godzilla' is thought to be a cross between Lady Fern and Japanese Painted. Large silver leaves are marked with purple and green on purple stems. H 3'

GAILLARDIA grandiflora (Blanket Flower) A genus of drought-tolerant plants from the sunflower family, native to North and South America. The common name refers to the inflorescence's resemblance to brightly patterned blankets made by Native Americans. Prefers full sun and well-drained soil. Late June to August. Zone 4-9

'Arizona Red Shades' This sister to 'Arizona Sun' produces masses of large, crimson red flowers over a very long period. About 20% have slight yellow tips. H 10-12"

'Arizona Sun' Abundance of 4 inch diameter bright yellow and red flowers. Dwarf uniform habit. H 8-12"

GALIUM odoratum (Sweet Woodruff) Beautiful fanned foliage, scented of fresh hay, makes an excellent ground cover in shady spots. Clusters of tiny white flowers. Moist, well-drained soil sweetened with lime. May-June, 6", Zone 3-9

GERANIUM (Cranesbill) With lovely flowers and delicately cut foliage, perennial geraniums make excellent border plants. Varied in heights, some can be incorporated into rock gardens. Cut back taller varieties after first bloom to encourage rebloom. All provide nectar for butterflies. Full sun to partial shade and moist, well-drained soil. Most will tolerate a variety of conditions.

cinereum 'Ballerina' Alpine species making compact mound of small, delicately-fluted, grey-green leaves; delicate purplish-pink blooms with pronounced dark centers. Summer. H 4-6", Zone 5-8

macrorrhizum (Bigfoot Geranium) This species of Geranium is very fragrant. Both flowers and foliage have an apple scent. Clusters of 5 petaled flowers late in the spring thru

Perennials

mid-summer. Foliage displays red and bronze tints in the fall. Zone 4-8

'Album' 'Album' bears white flowers that are flushed pale-pink with long, pink tipped stamens. H 8-12"

'Bevans Variety' Deep magenta flowers (to 1" diameter) with dark red sepals appear in terminal clusters above the foliage from mid to late spring. A sporadic rebloom may occur in summer. H 10-15"

'Ingwersens Variety' A rugged landscape geranium which tolerates wide range of soil condition, including dry shade. It exhibits light pink flowers with darker sepals. A great ground cover species spreading by fleshy underground rhizomes. H 12-18"

pratense A valuable filler for color in early-mid summer. This species has a good show of large cup-shaped flowers over a bushy mound of deeply cut green leaves. Cut back hard to rejuvenate. Reseeds freely. Naturalizes very well in a less than formal garden. Zone 4-9

'Laura' [NEW] Long lasting, weather resistant, double white flowers are produced from June onwards on upright stems with serrated leaves. Mounding, H 24", Zone 4

sanguineum Heavy blooming. Delicately cut foliage forms a dense mound and turns to shades of orange, rust, and brilliant red in autumn. Very adaptable. Zone 4-9

'Album' Loose habit. White flowers. May-June. H 8-12"

'Max Frei' [NEW] 'Max Frei' is noted for its compact growth habit and reddish-purple flowers. Flowers bloom in late spring. Foliage often turns attractive shades of red in autumn. Mounding, H 4-9", spread 12-24". Zone 3

sylvaticum 'Brookside' Vigorous clumps of finely cut foliage. Purple-blue flowers with white centers. Summer, H 20". Zone 3-8

x. 'Daily Blue' [NEW] Mid sized mounds of deeply cut foliage with long lasting violet-purple flowers with a lighter center. H 12-20", Zone 4

x. 'Dragon Heart' [NEW] Near black centers with dark rays on each petal of these long-blooming, 2" magenta flowers. The large-leafed foliage forms a wide clump, but also reaches out with a few stems to frolic around its neighbors. H 24", Zone 5

x. 'Johnsons Blue' Violet blue flowers form a full mound. June-July. H 12-18", Zone 3-8

x. 'Rozanne' An introduction from Blooms of Bressingham whose large, violet-blue flowers appear freely from June to October. Foliage is a deep green slightly marbled with chartreuse. H 2-3' spread 18-20", Zone 5-7

GEUM (Avens) Rosettes of handsome, hairy foliage bear colorful saucer shaped flowers on long stems. Best shaded from the midday sun. Cut back hard for a rebloom. Full sun to part shade and moist, well-drained soil. Zone 5-8

chiloense 'Blazing Sunset' Tall flower spikes grow from mounds of velvety foliage. Fully double scarlet-red flowers. Late May-June. H 16-24"

x. 'Pretticoats Peach' Flowers Spring & reblooms all summer long. Profuse peach and yellow flowers are semi-double and ruffled when in bloom on dark red stems. Compact. H 10"

x. 'Tempo Rose' [NEW] A new favorite! This early bloomer produces a plethora of dark, rose-pink flowers on short, dark stems. This easy to grow plant has a long bloom time allowing pollinators to enjoy this gem for months. H 8-21", Zone 5

x. 'Totally Tangerine' Tall, strong stems carry loads of bright apricot to tangerine orange flowers. Early Summer. 30"

GRASSES Ornamental Grasses have become increasingly popular in gardens. They are grown for their showy foliage and are generally very low maintenance.

CALAMAGROSTIS Stoloniferous plants that thrive in damp, fertile, even heavy soils.

Perennials

Zone 5-9.

acutiflora 'Karl Foerster' (Feather Reed Grass) Erect tufts of lax foliage. Loose pinkish inflorescences in July, persisting into fall turning to golden wheat. Full sun and moist, rich soil. An interesting addition to fresh and dried floral arrangements. H 2-4'.

brachytricha (Korean Feather Reed Grass) Tawny pink blooms, which fade to silver. The plumes remain open and feathery even when dry. One of the new flowering grasses that are happy in shade. Upright arching form in sun, slightly more lax in shade. Will tolerate a wide range of soils. Sept-Nov. 4-5'

CAREX Not true grasses, sedges generally have inconspicuous flowers, but their foliage provides great color for your garden. Organic rich, moist soil. Zone 5-9

elata 'Bowles Golden' An eye-catching sedge with bright golden-yellow leaves with thin green margins. Taller than most other sedges. An excellent choice as a highlight plant for shade or a water garden. 2-3'

FESTUCA glauca 'Elijah Blue' (Blue Fescue) A low-growing, semi-evergreen, clump-forming grass with finely-textured, blue-gray foliage with arching, needle-like blades. Low water needs. H 8-12", Zone 4-11

HAKONECHLOA macra 'Aureola' Bright yellow leaves with narrow green stripes, beautiful cascading form perfect for softening the edge of pathways or as an accent in combination containers. One of the few grasses that will thrive in shady sites. H 12-14", Zone 5-9

HELICTOTRICHON sempervirens (Blue Oat Grass) Bright steel blue leaves that tend to widen as they mature. Great addition to rock gardens, Full sun, H 18-24". Zone 4-8

MISCANTHUS sinensis Substantial grasses that need room to grow. They enjoy full sun and a wide range of soils. Plumes add winter interest to your garden. Zone 5-9

'Adagio' Delicately textured, narrow green blades with a perfect arching habit. Plumes are tinted with red. 2-3' foliage, 4-5' Inflouescent.

'Autumn Anthem' Selected for its heavy flower production and perfect habit. Dense clump of dark green leaves with a narrow, white midrib. Feathery, creamy blooms. H 5-5.5'.

'Bandwidth' [NEW] Broad, bright gold bands span rich green blades. Bandwidth forms full, compact stands that reach a height of 2-3 feet.

'Dixieland' Dwarf form of 'Variegatus', with arching green and white striped blades. Lovely showy pink plumes appear in late summer. Good container choice. 4-5'

'Gracillimus' (Maiden Grass) One of the oldest and perhaps the best known Miscanthus cultivar, valued for its fine textured foliage and gracefully rounded overall form. In late September it sends up airy panicles of copper-red flower heads and a little later the foliage turns a lovely golden yellow. 4-5'

'Huron Sunrise' The most profusely blooming Miscanthus. The green leaves have a narrow white midrib and form an upright vase-like clump. In late summer, large coppery seed heads turn into fluffy creamy tan panicles. In fall, the foliage turns colorful shades of red, orange, burgundy and gold. 5-6'

'Morning Light' Narrow leaves have a band of clear white on the leaf margins. A late bloomer. Flower plumes emerge bronze-red, then turn cream as they age. Has a beautiful refined look. 4-5'

'Oktoberfest' Improved 'Graziella", better fall color and early blooming. Forms a narrow upright tower of wide leaves that develop purple and red highlights in late summer. Flowers turn burgundy to creamy tan as they age. 6-7'

'Strictus' (Porcupine Grass) Best known for the horizontal yellow bands on its foliage,

Perennials

erect growth habit and upright foliage. Reddish fan-shaped seed heads emerge in September and turn reddish wheat in the fall. Great specimen plant. 6'

PANICUM virgatum (Switch Grass) Switch grasses are a highly versatile and adaptable plant. A hardy, deep rooted rhizomatous grass that does well in full sun and dry or moist conditions. Zones 4-9

'**Cheyenne Sky**' (**Red Switch Grass**) Upright clumps of stiff, metallic blue foliage produces beautiful airy panicles in the late summer. This is a petite variety forming a tight vase-shaped clump of blue-green foliage turning wine-red in early summer. 3'

'**Northwind**' Bluish-green foliage forms a compact, narrow, erect, tall clump of foliage which is topped in late summer by finely-textured, yellow flower panicles. A real standout in the garden. 6'

PENNISETUM alopecuroides (Fountain Grass) These grasses are characterized by a fountain of bottle brush flower spikes flowing up and out of neat, rounded cascading mounds of foliage. They prefer full sun and well drained soil. Zone 5-9

'**Burgundy Bunny**' (**Mini Fountain Grass**) Fiery red highlights! The snazzy, red accents appear in June and by September 50% of the foliage is eye-catching red. Compact habit. H 12-16"x16".

'**Desert Plains**' Large mound of finely textured, green leaves that develop red tips beginning in mid-summer. 5" long bottlebrush flower spikes appear in fall. Excellent for cutting, fresh or dried.. 4' x 5'

'**Hameln**' A medium-tall form of this species. Narrow, graceful arching leaves. Rose-colored foxtail seed heads. August-Fall, 24"

GYPSOPHILA (Babys Breath) A popular cut flower, with masses of tiny, delicate flowers and fine airy foliage creating a billowy mound. Prefers full sun and well-drained, alkaline soil. Zone 3-8

paniculata 'Festival Star' This extremely long blooming cultivar forms a short, neatly compact mound of grey-green foliage that is covered in dense white sprays of flowers. Does not go dormant in the summer. H 12-18"

x. 'Summer Sparkles' New variety forms a refined, compact, dense, uniform mound that is completely covered in bright white, semi-double, slightly fragrant flowers. May-July. 23-27"

HELIOPSIS helianthoides (False Sunflower) Prolific bloomer, with many daisy-like flowers. They are long blooming and great for mid summer to fall color. Most Zone 5-8. Tolerates poor, dry soil.

'**Bleeding Hearts**' This variety is fire red at first, then orange-red turning to bronze. It has dark purple leaves, black stems, a sturdy habit and reliable first year blooming. H 48"

'**Tuscan Sun**' Upright stems topped with many bright golden yellow, daisy-like flowers with an orange-gold button center. A new compact variety with good disease resistance. H 1-1.5'

HEMEROCALLIS (Daylily) Very hardy garden flower with long, grass-like foliage and trumpet shaped flowers, reminiscent of a lily. Blooms last just one day but are produced abundantly during a long blooming season. Early bloomers (E) begin in late June, mid-season bloomers (M) in mid-July, and late bloomers (L) in August. Tetraploid varieties (TET) have more chromosomes, are stronger and offer an array of color and sizes. Re-bloomers(RB) and ever-bloomers(EB) flowers all summer long. Zone 3-9

'**Apricot Sparkles**' Perhaps one of the most prolific daylilies of all time! 3" apricot colored flowers with glistening sparkles. Begins flowering in late June and continues reblooming until a hard frost. E, RB 14-18"

'**Blackthorn**' [NEW] Very light creamy yellow, 4 1/2 to 5", blossoms with a hint of peach,

Perennials

display a prominent wine purple eye and matching picotee edge half way up the attractively ruffled petals. Height 26", M-TET-RB.

'Primal Scream' This spectacular daylily screams for attention when in bloom! Enormous, 7.5-8.5" glimmering, tangerine-orange blossoms have narrow, twisted, ruffled petals. Blooms early July. H 34"

'Purple D Oro' Red-purple 2 3/4" flowers, with yellow throats subtly veined with purple. With all the ever blooming power of Stella. EB 16"

'Red Hot Returns' First red, continuous blooming daylily. 5" cherry red blossoms have a bright yellow halo, apple green throat and ruffled petals. Blooms all summer and into fall. 24-28"

'Romantic Returns' With a striking deep rose-pink color, the flowers of 'Romantic Returns' are remarkably large, at 5", for a re-blooming daylily. The ruffled petals add delicate sophistication to a plant that is easy to grow. H 25", E-M-RB

'Stella D-Oro' Ever-blooming with gold flowers. Award Winner, EB 18-24"

'Stephanie Returns' Unique colored: bicolor blend of peachy pink, ruffled petals with a thin purple eye, a dazzling yellow throat, and deep rose-purple sepals. Nearly continuous bloom. RE. 14-16"

'Storm Shelter' [NEW] Fragrant, 5", mauve colored blossoms with an enormous deep eggplant purple eye and matching edge. Many buds for continuous bloom or rebloom for many weeks in midsummer and fall. Height 24", TET-RB

'Sunday Gloves' Delicious frosting-white blossoms with pale lemon yellow eye. Fragrant. 5 1/4 " flowers stay open 16 hours. E-M, RB. 16"

'When My Sweetheart Returns' Soft peachy yellow blossoms with a large, rose pink eye, lemon throat, and romantically ruffled petals are produced on short scapes. A truly everblooming daylily!!! 14-16", mid-season

HEUCHERA (Coral Bells) Loose clusters of bell-shaped flowers are borne on wiry stems over low mounds of striking, rounded foliage. Coral Bells are useful in cottage gardens, cut flower gardens, and butterfly gardens. Crosses are the Villosa Hybrids, which are tolerant to heat and humidity. Full sun to part shade and moist, well-drained, organic rich soil. Early summer. Zone 4-8

x. 'Berry Timeless' Unbelievable flower production! Light pink flowers age to deep red, produced on tight wands on 18-20" scapes. Plant blooms and reblooms continuously from early summer to frost. Foliage is lightly silvered, mint green in a compact, dense clump. H 18-20". Part Shade, Full Shade, Full Sun.

x. 'Red Lightning' Electrifying dark red veins spark over huge gold leaves and white flowers. Color holds well throughout the season. H 11"/18". Part Shade, Full Shade.

HEUCHERELLA A group of hybrids between Heuchera and Tiarella, combining the characteristics of both parents making them pleasing additions to the front border. They tolerate sun, but prefers afternoon shade. Darker varieties perform well in full sun. Moist, fertile soil. Zone 4-9

x. 'Dayglow Pink' Fantastic flower color! Numerous dazzling pink flowers 'glow' in the garden. Leaves are cut with a chocolate inlay. Excellent for dry shade conditions. H 7", flower 16", spread 14". Part Shade, Full Sun.

x. 'Pink Revolution' 100 stems of magenta pink flowers at once! It is truly a blooming machine, deeply cut foliage will develop silver and purple markings as they mature each season, giving the plant multiple seasons of interest. H 12-15" X 18-24" W

HIBISCUS Very showy, shrubby plants bearing huge blooms. We are offering some

Perennials

compact forms which can be used in gardens. Tropical plants which love the heat, and don't awaken from their winter slumbers until late spring. Full sun and fertile, well-drained soil.

Mid to late summer. Zone 5-9.

'Evening Rose' [NEW] An excellent combination of hot pink flowers and near black foliage. 8" puckered flowers cover the round, dense habit top to bottom. H 4'

'Midnight Marvel' Huge 8 to 9" flowers of pure red glow against the richest purple foliage in the genus. Maple shaped leaves reach nearly a foot long. 4' tall and wide.

'Starry Starry Night' This variety produces a mound of very dark foliage, which serves as a dramatic backdrop for its eye-catching blooms. The soft pink flowers are quite large, up to 8 in. across, and have contrasting red eyes. H 3.5" to 4'.

HOSTA (Plantain Lily) Grown for its lovely and varied mound-forming foliage. Most bloom in June or July. Exceptions are noted. Heights are given for foliage rather than blooms. Hostas benefit from morning sun to encourage flowering and proper leaf color. Variegated varieties and yellow or gold-leaved hostas need some sun to fully develop their color. Green and blue hostas lose some of their intensity with too much sun. Hosta grows best in average to fertile soil, but will survive in poor soils. Zone 3-9

'Abiqua Drinking Gourd' Birds have been known to drink from 3" deep cups formed by the deep blue, heavily puckered leaves. White bell-shaped flowers in mid-summer. 16" x 40"

'Afterglow' Large, green, heart shaped leaves with incredibly arresting, wide, yellow margins. Forms an upright mound with pale lavender flowers. 24" x 36"

'Age of Gold' [NEW] Golden yellow leaves with an upright spreading habit and large smooth leaves. White flowers in midsummer. Matures to 25" tall X 58" spread. Shade to part shade.

'Autumn Frost' The leaves emerge frosty blue with a bright yellow margin that lightens to creamy white during the summer. It forms a medium sized mound topped with light lavender flowers in mid to late summer. H 12" x 12-16" W.

'Blue Angel' Huge blue leaves with a heavy texture and many near white hyacinth-like flowers in midsummer. Probably the largest blue hosta known. 3'h x 4'w

'Blue Ivory' A new blue Hosta with terrific sun tolerance and a compact, elegant form. The leaves, widely edged in creamy yellow, really accentuate the rich aquamarine tones at the center. Lavender blooms. 16"hx30"w

'Blue Mouse Ears' Adorable small hosta with thick, heart-shaped blue-green to grey-green leaves. Lavender flowers. 8".

'Blueberry Muffin' [NEW] A medium sized mound of large, blue, rounded leaves that are puckered in unusual patterns. Late in the season, the foliage transitions to green. Lavender flowers. Matures at 14" H X 36" spread.

'Cool as a Cucumber' This gorgeous large hosta forms a cascading clump of green and white variegated foliage. Its foliage is notably upright in youth, but quickly develops into a gracefully arching mound. The long, tapered, pointed leaves have bright green margins which jet towards the clear white center. H 28" x 40" W.

'Curly Fries' Leaves are long and lance-shaped, very wavy, chartreuse green in spring changing to a unique shade of yellow in the summer. Lavender flowers bloom in summer. H 6" x 16". Leaf Size: 8" x 2".

'Diamond Lake' Heart-shaped, thick and heavily corrugated blue leaves have wavy margins. The large size of this plant also translates to large leaves: they can get up to 9 inches wide by 11 inches long. H 17" x 45" W.

'Earth Angel' Superb new sport of 'Blue Angel', with variegated blue-green leaves edged in wide, creamy-white margins. Pale lavender flowers in early summer. H 30".

Perennials

'Empress Wu' The largest known hosta available! This massive plant forms a gigantic mound of huge, thick, dark green leaves topped with pale reddish violet flowers. It will make a fantastic statement in your shade garden! H 36 to 48" x 60-72" W.

'Etched Glass' Very wide, dark green margins contrast with a bright, brilliant yellow margin, with a light green pattern in the center. Very large and fragrant, white flowers in late summer. Matures at H 36" x 36" W.

'Halcyon' Mid-sized blue hosta with frosty blue-green and pointed leaves. Heavy substance foliage and is slug resistant. Pale blue-violet flowers. 18-28" H x 30" W.

'Hans' [NEW] Corrugated, puckered and folded leaves with ruffling at the base are blue-green with a showy white center. Flower lavender, medium H 20-22" X 32" spread.

'Hudson Bay' Wide, bright blue margins and apple green jetting contrast nicely with the creamy white center all season. Heavy substance leaves, white flowers. 24" H x 26" W

'Humpback Whale' Forms an immense dome-shaped mound of blue-green heart-shaped leaves that have an unusual hump in the mid-leaf which points the tip of the leaf downward. White bell-shaped flowers. 36"N x 48" W.

'Island Breeze' The leaves have a bright yellow center in spring, turning chartreuse in summer, with a darker edge. The petioles are bright red with some of the red color coming up into the base of each leaf. Lavender flowers on red scapes. H: 24" x 14" Leaf Size: 6.5" x 4.5"

'Liberty' This hosta has buttery-yellow leaves with rich green hearts, making for a unique and lovely look! Lavender flowers. 24"h x 36" w. Hosta of the year for 2012!!!

'Maui Buttercups' An outstanding yellow hosta with 5" round, puckered leaves that are deeply cupped and corrugated. Flared violet flowers. Good slug resistance. 10"h x 14"w

'Mighty Mouse' Mouse ear-shaped leaves in bluish green with a creamy yellow edge. Lavender flowers in early summer. 8"h x 12" w

'Mini Skirt' This petite hosta forms a miniature mound of very wavy, thick, blue-green leaves with creamy yellow margins in spring. In summer, the center turns more green and the edge lightens to creamy white. Pale lavender flowers. H 5" x 7" W.

'Munchkin Fire' This vigorous new yellow miniature hosta is the perfect size for troughs and the ever-popular fairy gardens. Short and narrow leaves hold their bright yellow color all season long. Lavender flowers appear above the petite habit in midsummer. H 5-7" x 20" W.

'Neptune' Unique blue hosta forms a cascading clump of narrow wedge-shaped leaves with heavily rippled edges. Arching lavender flowers in late summer. 24"h x 32"-39"W

'Patriot' Green with wide white margins, wonderful form. Lavender flowers. 15-18"h x 24-30"w

'Pocket Full of Sunshine' [NEW] This cute, small hosta grows quickly to form a compact clump of thick, distinctly cupped leaves that are yellow with broad, deep green margins at maturity. Part shade/shade. Lavender flowers, matures at 9" H X 19" spread.

'Rainforest Sunrise' This premium hosta variety's leaves emerge light green, then quickly develop dark green margins and a radiant gold center as they mature. The thick leaves become lightly cupped and heavily puckered. 8" h x 18" w.

'Seducer' [NEW] This showy hosta has large, dark green leaves with a slightly ruffled, gold margin and a trace of white between the center and margin. Requires summer heat to develop full gold coloration. Near-white flowers. Part shade/shade. Matures at 26" H X 36" spread.

'Stained Glass' A sport of 'Guacamole' exhibiting same rapid growth rate but displays variegation earlier and maintains brilliant gold throughout the season. Prominent veins throughout the leaf gives it a "stained glass" effect. Fragrant flowers. Light shade to 3/4 sun, 15" h x 30" w

'Waterslide' 'Waterslide' has wavy, ruffled leaves with heavy substance. The blue, rippled

Perennials

leaves look like water splashing in the shade garden, and hold their blue color well into the summer season. Lavender flowers appear on scapes in late summer. H 14" x 17" W
'Whee' Extremely ruffled, cream colored margins extend from the tip of each green leaf all the way down the petiole to the crown. The leaves of this medium sized hosta are of excellent substance, making them slug resistant in the landscape. H 11-18" x 24" W. Light lavender flowers.

IBERIS sempervirens (Candytuft) A bright spot in the early Spring garden. Evergreen, mound-forming foliage bears clusters of flowers. Valuable as a ground cover in rock and wall gardens. Drought and salt tolerant, deer resistant, thrives in poor soil. Full sun. H 6-12", Zone 3-10.

'Whiteout' Evergreen, mound-forming foliage bears clusters of the largest white flowers of any Iberis. H 6-12"

IRIS A large genus of plants with long, blade-like foliage and showy flowers excellent for cutting. With a wide range of color, bloom times, and cultural requirements, there are Iris for every garden.

ensata (Japanese Iris) Japanese Iris have huge, flouncy flowers that bloom in July, later than Bearded or Siberian Iris. Ideally suited to a pond edge, but do well in any moist, acidic, humus-rich soil. Sun to part shade. Zone 4-9

'Lady in Waiting' Near-white, lightly ruffled, double flowers with brushed lavender edges. The resulting flowers have a flat, open form. Signals are marked as small, simple yellow blotches. H 2-3'

sibirica (Siberian Iris) Siberian Iris form elegant, upright blades of green foliage and an abundance of flowers in mid-late June, just after Bearded Iris and just before Japanese Iris. Each variety flowers for a couple of weeks. They are not fussy but prefer slightly acid to neutral soil, moist and humus rich. Full sun to part shade. Zone 3-9

'Currier' Large purplish/ red falls, white wire rim and yellow base. Purplish standards. H 33"

'Happy Returns' [NEW] This Iris features repeat blooming flowers of violet blue with yellow blaze. Its blossoms first appear in late spring then again in summer. H 30-34"

'I See Stars' Unusual-looking Siberian iris is sure to be a star in the garden. Its 5½" flowers have six medium to dark blue flat petals with a clear white signal area netted in blue. H 26-30"

'Miss Apple' [NEW] Best red variety! Miss Apple features bold magenta standards atop deep red falls enhanced by golden accents. Plus, this beautiful iris has a lovely sweet fragrance. H 30"

'Peacock Ginger Twist' Layers of color – lavender standards, ginger falls, speckles all over and pearly pale gold styles. H 24-28"

'Peacock Painted Women' Stunning reddish falls, yellow signals at the base. Lavender and soft blue standards. H 24-26".

'Peacock Uncorked' 'Uncorked' has unique flowers in shades of golden yellow, sky blue, and purple-black with detailed veining. H 24-28"

'Swans in Flight' Beautiful variety with large white flowers and slender spiky leaves which add wonderful texture to the landscape. H 32".

'Yellow Tail' A beautiful semi-double Iris with white inner petals. Strong grower! Mid-Late bloom. H 28"

KALIMERIS incisa 'Blue Star' Pale blue, daisy-like flowers cover deep green foliage on a compact, bushy plant. An abuse-tolerant plant that is an excellent performer and a vigorous

Perennials

grower. One of the few perennials that truly blooms all summer. Full sun to partial shade, average well-drained soil. H 18", Zone 5-9

KNAUTIA macedonica (Pincushion Plant) Multitudes of pincushion flowers are produced tirelessly all summer long. A cute little flower that politely self-sows. Prefers full sun to part shade and well drained soil. Zone 5-9

'Mars Midget' A compact selection of this summer-long bloomer. It forms a low mound of grey-green leaves, bearing small ruby-red button flowers that open in succession over several months. H 12-18"

'Thunder and Lightning' A unique color combination! Light green leaves are shaped like lightning bolts with creamy yellow to white margins. Deep reddish-purple, fully double flowers.summer. H 12-18"

KNIPHOFIA hirsata (Torch Lily-Red Hot Poker Plant) Large spikes of tubular flowers blaze above grassy foliage. Buds are richly colored and open from the bottom of the flower spike. Full sun and fertile, well-drained soil. Intolerant of wet heavy soils. Bloom Late July-August. Zone 5(6)-9

popscicle series Compact habit. Blooms from summer into fall – a massive rebloomer! Attractive grassy foliage which looks great all season. High-impact colors.

'Mango Popsicle' Delicious spikes of sweet, mango-orange. H 18-30"

'Orange Vanilla Popsicle' A two-toned beauty topped with flower spikes of red orange over the creamy white on the bottom. H 18-30"

'Redhot Popsicle' Lively, cinnamon red flowers on short, compact plants for the smaller garden. H 16-20"

LAMIUM maculatum (Dead Nettles) Colorful foliage makes this vigorous spreader an ideal ground cover for brightening up a shady spot. Whorls of two-lipped flowers in spring. Part to full shade. Moist, well-drained soil. May-June. Zone 3-8

'Orchid Frost' Trailing stems with silver centers and scalloped, blue green margins. Orchid-pink flowers, showy and heavy bloomer. 4-6"

'White Nancy' Silver leaves edged in green. Pure white flowers. 6-12"

LAVATERA 'Barnsley Baby' (Tree Mallow) Racemes of silky, saucer-shaped, soft pink blooms resembling hollyhocks are prolifically produced on a compact bush with maple-shaped leaves from June- September. Full Sun, H 30-35". Zone 6-9

LIATRIS spicata 'Kobold' (Gayfeather Blazing Star) Tall spikes of striking, stately lavender-blue violet flowers, rise above neat tufts of narrow foliage. An excellent cut flower as well as a nectar source for butterflies. Prefer full sun to partial shade and well-drained soil. July, 24-30", shorter variety, Zone 3-9

LILIUM orientale (Oriental Lily) Oriental Lilies are large, exotic, star-shaped blooms that are deliciously fragrant, superb for cutting. Mid-Season. Full Sun. H 32-44", Zone 4-8

'Magic Star' A soft pink with deep pink stripe down each ruffled petal make this a showstopper in the garden! A double flower that can be 3-6" across.

'My Wedding' This double oriental lily is crisp white with a hint of pink around the edges has no stamen is also ideal as a cut flower especially for Bridal Bouquets. My Wedding has a beautiful scent.

LIRIOPE muscari (Lilyturf) Neat mounds of grass-like foliage produce showy dense flower spikes. Forms a thick mass of evergreen foliage, making this a good choice for ground cover or erosion control. Sun or shade and well-drained soil. Late summer, 12-15", Zone 5-8

Perennials

'Royal Purple' Grass-like foliage and deep purple flowers.

'Variegata' Yellow, white and green variegated foliage.

LOBELIA Whether they be North American natives or new hybrid cultivars, they all display spikes of brilliantly colored flowers in the peak of summer. Prefers full sun to part shade and rich, moist soil. Useful in wet areas. Mulch well in winter.

cardinalis (Cardinal Flower) Tall upright romantic wildflowers. Thrives in woodland streams and flowers in late summer and fall.

'Black Truffle' In addition to the brilliant red flowers, the foliage is deep purple all season. Grow in moist soil and partial shade for the best display. May need 2 seasons to show its full glory! H 3-4', Zone 3-8

species Native wildflower bearing radiant red flower spikes. July-September. 2-3', Heirloom

MONARDA didyma (Beebalm Wild Bergamot) A spreading plant with aromatic foliage often used in teas. Unusual whorls of flowers make excellent cuts. Attracts bees, butterflies, and hummingbirds. Needs to be divided regularly and the soil replenished. Beebalm is susceptible to mildew and dry soils exaggerate that susceptibility. Full sun and rich, moist soil. July. Zone 4-8

'Fireball' [NEW] This shorter variety bursts with deep scarlet blooms in summer until early fall. The clumping aromatic foliage is mildew tolerant. H 16-20"

'Pardon My Cerise' [NEW] A perfect size for smaller spaces; its stature has no impact on its flower power - the cherry-pink flowers rest right above the foliage and are the same size as in taller selections. Good resistance to powdery mildew. H 14-18", 10-12" spread.

'Sugar Buzz Grape Gumball' [NEW] In midsummer, 'Grape Gumball' forms a solid dome of vibrant magenta, 2-2½" flowers on strong, well-branched stems. It boasts above average resistance to powdery mildew. H 20-24"

NEPETA (Catmint) A member of the mint family, it is extremely easy growing plant with few pests or problems. Repeat bloomers throughout the season. Certain varieties are attractive to cats. Drought hardy and deer resistant.

faassenii Whorled spikes of two-lipped blossoms are borne above very aromatic, soft foliage. Most have a spreading habit and make wonderful cut flowers. Long blooming, low maintenance and drought tolerant. Full sun to part shade and light, well-drained soil. Hummingbirds find most in this genus irresistible. Zone 3-8

'Cats Meow' This plant has a tidy, dense, rounded form and its small gray-green foliage is topped with sky-blue flowers from early June to September. H 18" X 30" W

'Cats Pajamas' Blooms about 2-3 weeks earlier! The ball-shaped habit carries long, dark stems that hold indigo blue flowers, blooms from the soil to the tips of the stems. Even when the flowers are past peak, the color of the rosy purple calyxes give your garden an additional splash of color. H 12-14"

'Kitten Around' Very showy because the flowers are packed onto a shorter more compact plant that really concentrates the brilliant blue color for more impact in the garden. Forms a tight round mound. H 12-14"

'Purrsian Blue' This compact selection forms a densely mounded clump of green, aromatic foliage covered with periwinkle-blue blooms; very showy, intensely bright and so profuse. June-September. H 14-18"

'Walkers Low' The longest blooming Nepeta! Tons of lavender-blue flowers over compact mounds of grey-green foliage. April to fall! H 18-24"

sibirica 'Souvenir d Andre Chaudron' Upright and bushy plant with bright lavender flower

Perennials

spikes. June-August. H 3', Zone 5-9

ORIGANUM x. 'Amethyst Falls' A hardy, long blooming ornamental oregano. Good sized sprays containing hundreds of pendulous, chartreuse bracts and protruding bright pink flowers above spicy scented foliage. Full Sun/ well drained soil. H 8-12", Zone 5-10

PACHYSANDRA 'Green Sheen' An excellent evergreen ground cover for shady and partially shady sites, slowly spreading to form a dense carpet. Compact, deep and shiny green form of the common pachysandra. H 6"-12", Average, well-drained soil. Zone 3-9

PAEONIA Peonies are easy to grow, long-lived and hardy plants. Plant so that the root crown is 1 to 2 inches below the soil, no more. Peonies prefer full sun to part shade and slightly acid, well-drained soil enriched with manure.

intersectional aka itoh Created by crossing herbaceous and woody tree peonies. They offer the best qualities of both including large flowers in unique colors, robust herbaceous foliage, strong weather resistant stems, longer bloom time, extreme winter hardiness, and increased vigor. They will spend their first year getting established. Once mature, each plant will yield up to 50 blooms per year. Displays flowers well on upright to slightly arching stems. Flowers late spring. Most are fragrant. Zone 4-8.

'Bartzella' Huge 6-8" semi-double to double, pastel yellow flowers have a small rose-purple flare in the center and a pronounced sweet scent. 30-36"

'Callies Memory' Yellow-cream, semi-double flowers, edged in deeper russet with maroon flares and picotee edge appear mid-season on the mid-sized bush of lush green leaves. H 23-27"

'Scrumdiddlyumptious' Big, showy blooms grow to 6" in diameter and are colored creamy yellow with a pink blush and pink edges. They keep coming for weeks. Mild but pleasant fragrance. H 28"

lactiflora hybrids (Garden Peonies) The delightful common garden peony has been widely grown for over 600 years, with many colors available along with single and double blooms. They bloom late spring - early summer, starting in April and through the months of May and June. Sadly, peonies flower for a relatively short period of time (7-10 days). However, they do not flower all at the same time and are classified with a blooming time, ranging from very early to late season, relative to other peonies. So fill your garden with a variety of cultivars for continuous bloom of up to 6 weeks! Zone 3-7.

'Big Ben' Big Ben is a large bomb-type peony in shades of deep red with blue undertones. Vigorous, strong and very fragrant. H to 48", Blooms mid-season.

'Celebrity' Gorgeous, fragrant, huge 6" raspberry-pink blooms that contrast wonderfully with white tufted centers. Strong stems, lush green foliage. Blooms mid-late season. H 32".

'Coral Charm' Abundant, nostalgic, large, cup-shaped flowers emerge as a deep persimmon color and bloom out to elegant, coral-cream colored, semi-double flowers with a slight fragrance as they mature. Blooms early to mid season. H 40"

'Coral Sunset' The fullest of all corals! Ruffled semi-double blooms which range from a soft coral to intense coral with a rose overlay; the centers exhibit a fluff of golden yellow stamens. Mid-Late Spring. 30"

'Do Tell' An exciting cultivar with two rows of rosy-pink petals, speckled darker in the center, surrounding stamens in shades of white to dark pink. Mildly fragrant. Blooms mid-season. H 32"

'Edens Perfume' [NEW] One of the most fragrant peonies available! Double, large flowers, 6-7" across with frilly pink petals. A compact grower with strong stems perfect

Perennials

for cutting. Mid-season (early summer). 30"

'Festiva Maxima' Very large, double white blooms with a red spot. Fragrant. Blooms early season. 34"

'Henry Bockstoe' This cultivar has been long loved for its incredibly strong stems, intense fragrance, deep red color and amazing form. Blooms mid-season. H 32-36"

'Inspecteur Lavergne' [NEW] Large, fully double, rich-red, fragrant flowers with pale edges. Mid-late season. 32"

'Jacorma' [NEW] Huge, delicate, double rose-pink blooms provide a fragrant display in early spring. Famous for its easy care, disease resistance and fragrance! 36"

'Jan van Leeuwen' [NEW] Single pure white, cup-shaped blossoms with yellow centers, having a nice sweet fragrance. Late season. 30"

'Lady Alexander Duff' [NEW] An award-winning heirloom peony introduced in 1902. Deep pink buds open into large, soft pink flowers with ruffled, lightly fringed petals. Great, old-fashioned peony fragrance. H 36"

'Madame Calot' [NEW] Creamy white flowers flushed with blush pink and darker pink outer petals. Fragrant flowers on sturdy stems. H 32"

'Paul M. Wild' [NEW] Fully double, ruby-red, velvety flowers hold their color well. A great cut flower variety. Fragrant, mid-season bloomer. H 38"

'Paula Fay' 'Paula Fay' is a semi-double pink, may be bright light red in cooler climates, with textured blossoms and contrasting yellow stamens. Great cut-flower. Fragrant. Very early season blooming. H 35".

'Peter Brand' [NEW] Deep ruby-red, fully double, 6" blooms mature into a purple hue, while the lobed, green foliage takes on darker tints in the fall. Robust enough to rarely require staking. Heirloom. H 34-36"

'Sarah Bernhardt' A classic, very fragrant peony with light pink, double blooms with slightly paler edges. Late. Fragrant. H 36".

'The Fawn' The rose pink blooms are quite large with layer upon layer of crepe paper-like petals, the backsides of the guard petals sporting unusual fawn-like dark pink speckles. Fragrant. Blooms mid-season (June). H 34"

'White Cap' A fragrant hybrid having deep raspberry-burgundy guard petals fully filled with ivory and pink stamens. Blooms May-June. H 32"

PAPAYER (Poppy) A treasured, old-fashioned favorite for spring gardens. Colorful papery blooms atop long sturdy stems. Deadhead to prolong bloom-time. Attractive seedpods. Drought resistant. Prefers full sun and well-drained, average soil.

atlanticum Small, delicate, bright orange flowers. May reseed. June-August, H 2'. Zone 3-8

orientale Showy spring bloomers produce papery flowers with velvety black centers. Foliage dies back after flowering, so place them well to avoid large empty spots in the Summer. Late May-early June. 24-30" unless specified. Zone 4-9

'Brilliant' Fiery orange-scarlet blooms.

'Eye Catcher' A compact variety with large, bright orange-red flowers with black centers blooming in spring and summer on 18-24" fuzzy stems.

'Prince of Orange' Huge, 4-5", tangerine blooms have a satiny texture and long-lasting garden flair. H 2-4'.

'Queen Alexandra' Bright salmon-pink blossoms.

'Royal Wedding' Enormous, pure white blossoms accentuated by a deep black eye. H 20".

PENSTEMON (Beard Tongue) A large genus with great variety. Foliage is narrow and

Perennials

flowers are trumpet-shaped. Loved by hummingbirds and butterflies. Full to part sun and well-drained light or sandy soil. Blooming June-July.

barbatus 'Elfin Pink' Among the hardest of Penstemon species. Cheerful Clear pink tubular flowers are borne on tall stems above a low mound of green foliage. May need some support. Nice cut flower. June-July. H 12-15", Zone 5-9

digitalis 'Dakota Burgundy' [NEW] Glossy, purple black leaves on a very hardy perennial. The lovely lavender to violet flowers produced in June are adored by hummingbirds. Showy dark seed heads in fall. H 12-14", Zone 3

pinifolius 'SteppeSun Sunset Glow' (Pineleaf Penstemon) [NEW] Native and long blooming, this plant resembles a dwarf (to 1 1/2 ft.), cushion-shaped pine with bright, evergreen, needle-like leaves and beautiful, narrow, orange flowers. Hummingbirds love it! Zone 4

x. 'Blackbeard' Penstemon 'Blackbeard' flowers for a long, long time. Elegant and slender, deep raspberry-colored flowers hang amidst handsome dark, eggplant-purple foliage well into the autumn. H 28-34", Zone 3-8.

x. 'Cherry Sparks' Luscious cherry red bells with white throats appear for twice as long and are much larger than other perennial Penstemons. Late May into August. H 18-20", Zone 5-9

PEROVSKIA atriplicifolia (Russian Sage) Branching upright stems bear silvery-grey foliage and sprays of fragrant lavender flowers. Lovely cut flowers. Full sun and well drained soil. August-September. Zone 4-9

'Baby Jean Blue' For a shorter, more manageable Russian Sage, try 'Blue Jean Baby'! This variety is one of the earliest Perovskia to bloom. H 28-34"

'Denim-N-Lace' Lacy-like, bright sky blue flowers are held on amethyst calyxes, with strong stems and an upright habit. The beautiful color will last a long time! Medium Height, 28-32"

PERSICARIA polymorpha A massive herbaceous shrub that needs lots of room to show off its vase shaped form. Enormous, fluffy, creamy-white plumes arrive in summer. It does not spread or self sow like some of its relatives. Full to part sun. Tolerant of wet sites but also does fine in average soil. H 5'-6', Zone 3-8

PHLOX A large and variable genus of prolific and showy bloomers. Most prefer a sunny position and rich moist soil. Their long bloom time may be extended by deadheading spent flowers. Mildew has been a problem with Phlox in the past, but new resistant cultivars are available. Proper cultivation can also help keep mildew under control; keep soil moist, plant in a well-ventilated area, keep foliage dry, and divide mature clumps every 3-4 years.

divaricata 'Blue Moon' (Woodland Phlox) A delightful spring blooming native for shade that will spread and fill in around bulbs and perennials that are slow to emerge. A wild sweet William, 'Blue Moon' with loose clusters of fragrant dark blue flowers that drive butterflies wild. May. 10-14", Zone 3-8

paniculata Garden Phlox is an old-fashioned favorite because of its large, showy, fragrant flower-heads. We choose only mildew resistant varieties. Prefers full sun and moist, rich soil. Mid-summer to fall bloom. Zone 4-8

'Amethyst Pearl' This dwarf hybrid phlox has glossy, bright green foliage that stays clean all season. Plentiful light amethyst pink flowers with a white eye are produced in loose, rounded panicles in early summer and again in early fall. Complete mildew resistance. H 18"

'Blue Paradise' Flowers open a pale blue, darken to deep violet-blue, then get red-violet edges as they age. The color changes with the light-looking more blue or purple

Perennials

depending on time of day. Intriguing. 3-4'

'Cover Girl' [NEW] A new member of the Garden Girls Collection, topped with lavender purple flowers with a white halo, vibrant-colored flowers. These tall phlox shun mildew and rebloom beautifully. H 38-42"

flame series New compact, dwarf cultivars that features upright clusters of large, sweetly fragrant blossoms. Highly disease resistant, they are available as 'Flame Purple', rich purple flowers with a small darker eye and 'Flame Red'. 12-20", Mid-summer.

'Flame Purple'

'Flame Red'

'Party Girl' [NEW] A new member of the Garden Girls Collection having showy, large white flowers with star shaped pink centers. This tall phlox shuns mildew and reblooms beautifully. H 28-32"

x. 'Cloudburst' (Tall Cushion Phlox) [NEW] A brand new type of Phlox! Dark purple buds open to fragrant lavender purple flowers with bright pink eyes that cover a broad, mounding, billowy habit. Excellent disease resistance. H 28" Zone 4-8

PLATYCODON grandiflorus (Balloon Flower) A clump-forming plant bearing upright stems of triangular leaves and clusters of balloon-like buds which open to star-shaped, cupped flowers. A nice cut flower. Balloon Flower is very late to emerge in the spring. It prefers full sun to partial shade and average to rich, well-drained soil. July-August. Zone 3-9

astra series A compact, well branched series available in Blue, Light Pink and Semi-Double White. H 8-10"

'Astra Blue'

'Astra Light Pink'

'Astra Semi-Double white'

'Mariesii Blue' Slightly taller selection with true blue flowers. H 18-24"

POLEMONIUM caeruleum 'Bressingham Purple' (Jacobs Ladder) The original Jacob's Ladder, whose compact foliage is a joy all season and the lavender blue flowers are a fantastic added spring bonus. Partial shade and cool, moist, humus-rich soil. Avoid hot afternoon sun unless you can keep them consistently moist. Late spring, early summer bloom. H 15-23", Zone 3-9

PORTERANTHUS AKA GILLENIA trifoliatius (Bowmans Root) This under-used plant not only adds shape and texture, but it is also very useful for dry, shady sites, with its lacy white flowers growing in loose panicles with red petioles and mahogany stems. Native to Eastern U.S.. Flowers freely late May thru June. Sun to light shade. H 2-3', Zone 4-8

PRIMULA (Primrose) Italian for 'Spring', these are often the first gems of color following winter. Flowers bloom on stems rising from basal clusters of broad leaves. Partial shade and moist, rich soil. Zone 4-8.

japonica (Japanese Primrose) Spectacular looking species with flowers clustered candelabra-style around sturdy upright stems. Reseeds prolifically along stream or pond sides, creating a dazzling show once large swaths are achieved. May-June. Zone 5-7

'Alba' Large clusters of white flowers on thin stems above a basal rosette of toothed, spoon shaped leaves. One of the earliest flowering primroses. H 12-24"

'Apple Blossom' Pale pink to white flowers with red eye. H 12-18"

'Millers Crimson' Whorls of bright, carmine red blooms sit high on lush green foliage. Loves moisture. H 12-23"

RUDBECKIA fulgida (Black Eyed Susans) Black-Eyed Susan or Coneflowers are showy,

Perennials

native North American wild flowers. Daisy-like flowers with large, raised, brown centers are wonderful cut flowers. Attract butterflies. Easy to grow in full sun to light shade and average to moist, well-drained soil.

laciniata 'Autumn Sun' (Herbstonne) Forms an enormous, upright clump of multi-branched stems bearing huge, lemon yellow daisies with drooping petals. July-September. H 3-6', Zone 5-9

'Little Goldstar' Compact selection having star-shaped, 2-2 1/2", golden yellow blossoms carried just above a short, bushy clump of rich green foliage. Mid Summer-Early Fall. H 14-16", Zone 4-9

sullivantii 'Goldstrum' Bright gold petals with a deep brown cone highlight the garden in late summer. Each flower may last up to two weeks! Long blooming and very floriferous. Late July-September, H 24-36". Zone 3-10

SALVIA (Garden Sage) Popular garden plants with attractive basal foliage supporting lovely spires of mostly purplish flowers. Provides a fine mass of color in the garden. The flower spikes are useful cut flowers. For many of these varieties, if you keep spent flowers removed the plant will continue to flower in flushes throughout the summer. Full sun to partial shade and average, well-drained soil. Zone 3/4-9

nemorosa These are drought tolerant and hardy plants. Flowers range in colors and have numerous leafy stems. The many inflorescences have closely spaced whorls of small flowers.

'Blue Hill' Dense spikes of true blue flowers in June-July. H 1.5-2'.

'Bumbleberry' [NEW] 'Bumbleberry' produces dark fuchsia pink flowers on dark wine purple calyxes on a petite habit of attractive deep green foliage. Plant this petite package in the front of your border. H 10-12", Zone 3

'Bumbleblue' [NEW] 'Bumbleblue' is prolific bloomer, producing loads of violet blue flowers on a petite habit of healthy, deep green foliage. This cute sized package is perfect for the front of the border. H 12-14", Zone 3

'Carradonna' From Germany, a long blooming violet purple Salvia with glowing purple stems. A taller habit, 24-36". Blooms late spring, early summer and often reblooms late summer.

'Violet Riot' Vivid-violet blue color on dense, well-branched plants with a neater upright stems than some salvias. H 20-24".

verticillata 'Purple Rain' (Whorled Sage) [NEW] Attractive perennial forming bushy mounds of fuzzy olive green leaves. Whorls of smoky purple flowers atop spires of long arching stems in June- August, H 16-24".

x. 'Blue by You' [NEW] A hybrid between Salvia nemorosa and Salvia pratensis, it has excellent Winter hardiness and heat tolerance. Sterile hybrid for longer flowering. Re-flushes very easily. Long, bright blue flower spikes. H 20-22", Zone 4

SANGUISORBA officinalis varimicrocephala 'Little Angel' (Burnet Bottlebrush) This unique dwarf features compact green and white variegated foliage. Maroon, oblong flowers rise up on slender stems in late summer. H 12-24", Zone 4-8.

SCABIOSA (Pincushion Flower) Clumps of basal foliage bear tufted flowers on long stems. A long lasting cut flower. Attracts butterflies. Not reliably hardy, so protect in winter. Full to half day sun and fertile, well-drained soil. Exuberant and long bloomer. June-Oct. Zone 4-8

caucasica 'Fama Deep Blue' The largest flower of all scabiosa. The 4", ruffled, deep blue blooms with pincushion centers constantly buzz with bees from midsummer to fall. H 1.5-2'.

columbaria A mixture of rounded and serrated basal leaves and domed flower heads.

flutter series A dwarf Pincushion Flower with large blooms, non-stop from spring

Perennials

through late summer. Terrific for mass planting, edging the border or in pots. Available in Deep Blue and Rose-Pink. H 12-14".

'Flutter Deep Blue'

'Giant Blue' Immense, 3", lavender-blue flowers twice the size of 'Butterfly Blue'. H 24"

SEDUM A large genus of succulent plants with clusters of small, starry flowers. Full sun and lean well drained soil a must! Zone 3/4-9

DWARF TYPES Spreading low growing succulents which are covered with starry flowers. They also make a great alternative ground cover in full sun, spreading even under the harshest conditions.

rupestre Also known as 'Rocky Stonecrop', vigorous, mat forming evergreen species.

'Angelina' Carpets of screaming gold needle like foliage with tiny yellow flowers in mid- summer. The foliage turns dark yellow and finally orange when the coldest weather arrives. 3-5"

sunsplarkler series Groundcover type sedums offering colorful foliage with a compact mounded habit and large clusters flowers. Zone 4-9

'Dazzleberry' Huge raspberry flower clusters completely engulf the smoky blue-grey, wide mounds of foliage. One of the earliest fall-blooming Sedum varieties. H Short, 4-8"

'Firecracker' Strong and robust, this densely, branched selection puts on a strong show of burgundy red color all season. Vibrant pink flowers are an added bonus in late summer. 6"

'Lime Zinger' Fantastic lime-green leaves edged with bright cherry-red. In the late summer the carpet of colorful foliage is topped with large clusters of soft pink flowers. 6"

'Wildfire' Forms a low, compact mound of shiny, cherry-red thumbnail-sized foliage with pink variegated edges. Large rose-pink flowers appear in late summer, lasting for weeks. H 6-8"

takesimense 'Atlantis' [NEW] Small, serrated leaves are dark green with very wide creamy yellow margins, becoming tinged with pink blush tones with cold temperatures late in fall. Low, spreading sedum. H 4-6", Zone 3

x. 'Little Miss Sunshine' Prized for its incredibly dark green, glossy foliage, compact size, and tidiness in the landscape. From early to midsummer, tiny clusters of yellow flowers cover the polished habit. H 6-8" X 18-20" spread, Zone 4.

x. 'Rock n Roll Boggie Woggie' [NEW] Cream colored margins make this plant look bright and yellow all over. Sprinkled with yellow flowers during early to midsummer. A fantastic variegated option for a groundcover. Perfect for rock gardens! H 6-8" X 16-18" spread, Zone 3

TALL TYPES Clump forming, mostly upright plants which are topped with large clusters of small flowers. Flowers are nice for cutting or leaving on the plant for winter interest. Hardy and low maintenance. Attractive to butterflies.

spectabile 'Autumn Fire' Could this be the Sedum to surpass 'Autumn Joy' in quality and popularity? Thicker, more consistent and nicer looking overall according to the trails. Same rusty red color we love! Resistant to 'sudden sedum collapse'. H 2'

x. 'Mr. Goodbud' Large 5-6 inch clusters of vibrant purple pink flowers on purple red stems top the compact, upright clump of deep green, serrated foliage in late summer. The stems are very strong and relatively short, resisting flopping. 16"

x. 'Night Embers' This late season bloomer can be admired for its strictly upright habit of dark black-purple, semi-glossy succulent leaves and small clusters of light mauve pink

Perennials

flowers. H 24-26".

x. 'Rock n Grow Superstar' Dark turquoise foliage forms a dense, compact, mounded habit. Rosy pink flowers. H 10-12"

x. 'Touchdown Teak' An amazing glossy red-brown to purple-brown leaves, red stems, and a vigorous, upright-but low habit. Rose-red flowers are a summer feature. H 15" x 16" W.

SISYRINCHIUM augustifolium 'Lucerne' (Blue Eyed Grass) An American native with tufts of grassy foliage and violet blue, starry flowers. Full to ½ day sun and average, well-drained soil. Avoid hot, dry soils. June- July, 8-10". Zone 5-9

SPIGELLA marilandica 'Little Redhead' (Indian Pink) [NEW] An easy to grow, but underused native wildflower that has been voted one of the top ten hummingbird plants in the country. A rhizome clump forming plant which bears many upright tubular bright crimson flowers with yellow throats. In the wild, it is found growing in moist soil at the edge of wooded areas or along streams. Partial shade, H 12-24", Zone 5

STACHYS Members of the mint family, most with hairy leaves and stems. Flowers are carried in tiered whorls on erect stems. These long lived, very hardy perennials have excellent drought and heat tolerance. Full sun to light shade. Average to moist, well-drained soil. Zone 4-8

byzantina 'Helen Von Steins' (Lambs-Ears) Lambs-Ears are one of the most popular silver-leaved perennials. Plants form a dense clump of soft felty, silver-grey leaves, some form upright flowers in early summer. H 6-8".

macrantha 'Morning Blush' Producing dozens of clustered spikes of pink-flushed tubular blooms over basal clumps in the late spring and early summer. The dense foliage grows to four inches tall and the plants reach 14-16 inches in height when in bloom.

monieri 'Hummelo' 2019 Perennial of the Year! A long blooming native of the Alps with rose -lavender flower spikes above clumps of green basal rosettes. Little known and under utilized. A personal favorite. Summer. 18-20"

STOKESIA laevis (Stokes Aster) Broad rosettes of shiny green, lance shaped leaves. Branched flower stalks bear flat aster-like flowers with fuzzy centers mid-July through August. Nice planted in groups. Grow in full sun to light shade and well-drained soil. Zone 5-9

'Honeysong Purple' Dark purple stokesia, a true royal purple with a hint of red that deepens as the flower ages. Contrasting white stamens, 4" blooms, and pronounced serrated edges make this the finest ever offered. Mid-summer. 12"

'Peachies Pick' Dense clumps of healthy, deep green foliage topped with dozens of large blue flowers. Perhaps the best Stokes Aster available! H 18"

THALICTRUM (Meadow Rue) Fine plants with delicate, columbine-like foliage. Airy sprays of flowers on long stems above the foliage make outstanding cuts. Full to part sun, a cool location, and moisture retentive soil. Summer blooming. Zone 5-9.

nimbus series Available in both 'Pink' and 'White', flowers are massive puffs at the top of the foliage. The striking dark stems and lovely fern-like green leaves are showy even before the bloom. Great crown count. Blooms the first year, but much better after a winter chill. H 28" x 16" W.

'Nimbus Pink'

'Nimbus White'

rochebrunianum [NEW] One of the hardiest Meadow Rues, its lavender petals surrounding

Perennials

a large cluster of bright yellow stamens and blooms freely from midsummer 'til early fall, its small flowers appearing all over wiry, well-branched dark brown stems. H 4-6' tall, Zone 4
x. 'Black Stockings' Tall, almost black stems carry fluffy, lavender flowers above attractive foliage. H 48".

TRICYRTIS (Toad Lily) Unusual Japanese perennials with a subtle beauty. The orchid-like, almost tropical looking blooms are an excellent companion for Hostas and Ferns. Forms slow spreading clumps. Prefers light to full shade and moist, humus-rich soil. Late August-September. Zone 4/5-9

formosana 'Autumn Glow' Leaves are large, lush, and uniquely variegated; wide, yellow leaf margins are showier in the shade. Arching stems of orchid-like, reddish purple to blue violet speckled blossoms appear in late season. H 24-26"

hirta 'Miyazaki hybrids' Long, pointed, fuzzy leaves on arching stems and white star-shaped flowers spotted with purple. Does not form large clumps, but makes a gorgeous specimen plant. 2-3'

TRIFOLIUM repens A perennial ground cover and edger, a fantastic companion to other container plants, gracefully cascading over the edges. Tolerant of extreme heat and cold, hardy plants grow energetically in sun and shade. H 3-5" x 10-14" spread. Zone 4-10

'4 Luck Coco Mint' Burgundy brown with green centers.

'4 Luck Green Glow' Unusual bicolor shades of greens.

VERBASCUM (Mullein) [NEW] Bold rosettes of large, lance-shaped, hairy leaves send up tall spikes of densely packed flower heads. Grow in full to half day sun and average, well-drained soil. June-July. Zone 5-9

x. 'Dark Eyes' [NEW] Very short habit with large felted gray leaves in a rosette and cone shaped spikes of large, creamy yellow flowers with large maroon centers. Wonderful in front of a sunny border! H 8-12"

x. 'Plum Smokey' [NEW] Short, stocky spikes of rosettes carrying a multitude of 16? flowering stems above the foliage with numerous, large, smoky-purple flowers. Blooms for months in full sun with good drainage. H 8-16"

x. 'Sugar Plum' [NEW] Large, clear plum flowers on numerous spikes, like a bouquet over the ring of foliage. This dwarf reblooms for months in full sun with good drainage. H 8-18"

VERONICA (Speedwell) A large genera comprised of both upright and prostrate species. Upright flower spikes and linear leaves are common characteristics. Some creeping varieties have rounded blooms. All make exceptional border plants that respond well to deadheading. Loved by butterflies. Full to half day sun and average, well drained soil that does not dry out completely. Avoid hot, dry sites. Zone 4-8

longifolia This species forms a mound of attractive deep green foliage, bearing numerous spikes flowers starting in early summer and continuing for weeks.

'First Lady' A compact plant, bearing numerous spikes of pure white flowers. Nice cut flower. H 14-16".

'First Love' A compact variety, it grows to be 16-20", with elegant, bright pink flower spikes.

peduncularis (Creeping Speedwell) Alternate, simple leaves, on creeping stems. Flowers in spring.

'Waterperry Blue' Shiny green leaves flushed with burgundy, producing masses of 1/2" lavender-blue flowers from May-June. 5-10"

'Whitewater' Dainty, pure white flowers cover this dense groundcover. Glossy, dark

Perennials

- green foliage turns to burgundy, then to bronze in the fall. Late spring-early summer. 6"
- spictata 'Very Van Gogh'** Radiant orchid, paintbrush-like, rosy purple flowers appear on well-branched scapes. Upright, compact and clumping. A long blooming speedwell. 18-20".
- x. 'Blue Skywalker'** [NEW] 'Blue Skywalker' solves the dilemma of limited horizontal space while still providing the much needed height in the garden. Lavender blue flower spikes cover the top half of an incredibly upright habit. H 28-30" x 18" spread
- x. 'Magic Show Wizard of Ahhs'** One of the earliest Veronica to bloom, this plant produces thick spikes of intense, violet blue flowers that cover the top half of a low, wide habit, early to midsummer. H 14-16", Zone 4-8.
- x. 'Royal Candles'** Violet blue flowers over plants with compact, rigid habit. Early summer, 12"
- x. 'Snowmass' (Blue-Eyed Veronica)** Small, glossy, rounded leaves form a dense mat, covered by small, four-petaled, white flowers with a blue eye. Beautiful as a ground cover. H 1-2"x18".
- x. 'Tidal Pool'** Denser other speedwells, with small oak-like leaves. The plants cover themselves with medium to deep blue-violet flowers from late April to mid-July. The rest of the season they settle into an attractive ground cover. 3"

VINCA minor Vinca minor or Periwinkle is a beautiful, evergreen, trailing ground cover for partial shade and either poor or rich soil. Spring bloomer, but intermittently continues all season. 4-8", Zone 4-9

'Bowles Variety' Larger deep blue flowers than the species. Dark green glossy foliage. 6-8"

'Ralph Shugert' Green and white variegated foliage with starry blue flowers brings loads of color to large areas with very little effort. H 4-8".

VIOLA cornuta 'Etain' Large (1.5"), pale yellow, fragrant flowers with lavender-purple margins. Very floriferous and long blooming. Small, low growing plants with evergreen, heart-shaped foliage. Prefer partial shade but will tolerate full sun. Moist, humus-rich soil. H 6-10", Zone 4-9.

CLEMATIS

HYDRANGEA petiolaris (Climbing Hydrangea) [NEW] Sprawling vine that clings and climbs by aerial rootlets, eventually to 30'. Flattened clusters of fragrant, white flowers in a lacetop configuration, blooming late spring to early summer. Heart shaped, lustrous leaves. Best grown in rich, well drained soil, part shade to shade, will tolerate full sun in the North. Slow to establish, then very vigorous. Zone 5

BASIL ocimum basilicum Wonderfully aromatic foliage on a bushy plant. Leaves are used in cooking and teas (digestive aid). Some basil is grown for their ornamental value. Prefers full sun and rich, well-drained soil. Annuals

'Amethyst' The darkest purple basil available with ample, flavorful leaves. Nice thick turned down leaves like the classic sweet genovese. 60 days .

'Spicy Globe' Very compact (6" high, 12" around) and mound forming, ideal for containers. Intense, spicy flavor packed in tiny spicy leaves.

'Sweet' Perhaps the most popular and widely used culinary herb. It is a tender annual, aromatic plant with a spicy odor and flavor. We grow a couple of different 'sweet' varieties dependent upon the time of the season and the weather conditions. They are compact, 12-14", will thrive well in containers and the garden.

'Sweet Mammoth' This basil has a much stronger, fuller flavor than the typical sweet basil. Huge, wrinkled leaves, growing as big as your hands, are perfect for sauces, pesto and even

Herbs

fresh on a sandwich. Great in pots and growing indoors, plants have a shorter habit. H 15-20"
'Thai Cardinal' Thai basil with larger leaves. Flat, 2-3" long leaves that are larger than typical Thai types; purple stems and dark, purple-red flower bracts. Cinnamon/clove flavor with hints of anise. Slower growing and slow to bolt. Has demonstrated very good downy mildew tolerance. 80 days

BAY SWEET *laurus nobilis* An aromatic, evergreen shrub with shiny green leaves favored in Italian cooking. Grown in containers that can be brought indoors to overwinter. Full sun to partial shade and average, well-drained soil. Tender perennial.

BORAGE *officinalis* 'Herb of Gladness' This herb is usually associated with good spirits and well being. An airy plant with thick soft hollow stems to 3' and decorated in an abundance of star-shaped wedgewood blue flowers with black anthers. The bristly leaves when chopped have a refreshing cucumber-like flavor and aroma. The flower is a nice addition to summer salads or they float perfectly on the surface of summer drinks. Sun, average, well-drained soil. Annual, will reseed

CATNIP *nepeta cataria* A spreading herb with small, downy foliage that is admired by cats. Spikes of white flowers. Nice cut or dried flower and a useful tea (digestive aid, sleeping aid, general tonic). Full sun to partial shade and alkaline, well-drained, sandy soil. Perennial, 30"

CHAMOMILE ROMAN *chamaemelum nobile* A low-growing carpet of feathery foliage bearing sweetly scented daisies used in teas and cosmetics. Full sun and light, dry soil. Perennial, 6"

CHIVES *allium* Very pretty in an herb or perennial border. Grow for fresh taste, easily cut fresh when ready to use it. Full sun and average well drained soil. Perennial, 1'

'Geisha' (Garlic) Clumps of grassy foliage with a mild garlic flavor. Pure white edible flower heads appear in the late summer.

'Onion' Clumps of grassy foliage with a mild onion flavor. Lovely pink edible flower heads appear in the spring and are long lasting.

CILANTRO-CORIANDER *coriandrum sativum* Leaves are used in Mexican cuisine, seeds are used in Asian and Indian cuisine. Strong flavor, easy to grow in full sun to partial shade and average, well-drained soil. 3rd best selling herb behind Basil and Parsley. Annual, 2'

DILL FERNLEAF *anethum graveolens* Compact form. Flat umbels of yellow flowers atop feathery foliage. Leaves and seeds are used in cooking. Harvest seeds before they are fully mature. Full sun and average, well-drained, moist soil. Annual, 18"

FENNEL *foeniculum vulgare* Fennel is a lovely herb that can be used for many different types of gardens. Try growing it in your garden, medicinal garden and simply for attracting butterflies to your garden, also stunning as a backdrop or focal point. Full sun, average well drained soil. Annual.

'Orion' (Florence) Feathery, green foliage on this dwarf, bulb forming variety. Excellent sliced in salads or sauteed as a side dish. Bolt resistant. 1-2'

'Purpurescens' (Bronze) Feathery, bronze foliage with seeds that are licorice flavored and used in cooking. Seeds aid in digestion. An herb with great ornamental value. 5'

HELICHRYSUM *italicum* (Curry Plant) Although called "curry plant" and smelling like curry powder, it is not related with that mixture of spices. It is edible having a strong bitter

Herbs

taste. Most commonly used as an essential oil. Fine silvery foliage topped with unusual yellow flowers, both dry nicely and are used in crafts. H 2' Tender perennial Zone 7-10

HYSSOP officinalis 'Blue Sprite' [NEW] The plant has a sweet scent and a warm bitter taste used as a flavoring for foods and beverages and as a folk medicine. A bushy plant with long leafy half-whorled spikes of fragrant flowers from July to September, grown for its aromatic leaves and flowers. Very popular with all the pollinators! Full sun, part shade. H 24", Zone 3

LAVENDER *lavandula* An ornamental, aromatic herb famous for its enchanting scent and everlasting flowers above silvery foliage. Lavenders may overwinter if given very well-drained, sweeter soil (added lime) and a protected spot (near a stone wall, foundation, etc.) Cultivate in a generous amount of lime twice a year. They prefer full sun and alkaline, well drained soil. Zone 5

angustifolia Also known as Fragrant Lavender or English Lavender (although not native to England). Very fragrant, yields an essential oil which can be used in salves, perfumes etc..

'Hidcote' Compact bushy shrubs that bloom mid-summer with deep purple spikes. 12-16".

'Super Blue' Large rich blue blooms on short flower spikes all summer. Excellent heat and cole tolerance with exceptional landscape performance. H 10-12".

'Sweet Romance' This new lavender has deep blue flowers and a great compact growth and flowering habit, as well as an extended season of flowering. 12-18"

intermedia A cross between *L. angustifolia* and *L. latifolia*, producing larger rounded, branching shrubs. July-August.

'Phenomenal' In trials this has been one of the hardiest lavenders seen throughout Europe and the U.S.. 'Phenomenal' is said to have excellent winter survival. Tolerance to heat and humidity and resists common root and foliar diseases. Silvery foliage, elegant flower presentation and irresistible fragrance. Both ornamental and edible. H 24-32".

'Provence' One of the hardiest and most fragrant Lavenders. Used in France's perfume industry. Attractive to bees, butterflies and hummingbirds. A large cultivar, 2-3; tall and wide.

LEMON BALM *melissa officinalis* A coarse, bushy relative of the mints with green leaves and clusters of white flowers. The leaves have a strong lemon scent and flavor and are used in teas (mild sedative), cooking, and potpourris. Full sun to partial shade and average, soil. Perennial, 18-24"

LEMON GRASS *cymbopogon flexuosus* 'East Indian' A clump-forming grass with lemon scented leaves used in teas, Asian cuisine, and potpourris. Thrives in moist soil and full sun. Overwinter indoors. Tender perennial, 2'-4'.

LEMON VERBENA *aloysia triphylla* A leggy subshrub with wonderfully aromatic, lemon-flavored leaves used in teas, cooking, and potpourris. Cut back to encourage branching. Overwinter this tender, deciduous plant indoors. Full sun and rich, moist soil. Tender perennial 3-4'

MARJORAM *origanum* 'Sweet' Marjoram is a tender perennial which forms a dense mound. The small, grey-green, aromatic leaves are used in cooking. The flavor is similar to Oregano, but milder and sweeter. Grow as an annual or overwinter indoors. Full sun and light, dry, well-drained soil.

MINT *mentha* An easy to grow perennial with a wide variety of scents and flavors. Many

Herbs

are spreading and invasive, so choose their spot in the garden with care. Use root barriers or grow in containers. All may be used in teas and cooking. Mints prefer full sun to partial shade and rich, moist, well-drained soil. Poor soils will slow the spreading growth of most mints. A potential groundcover for difficult areas, can be mowed regularly. Zone 4

gentilis 'Variegata' (Ginger Mint) Gold flecked leaves, fruity fragrance, ginger flavor.

Variegation most prominent during the cool of the Spring and Fall. H 8-10" x 24" W, Zone 5
piperita

'Chocolate' Delightful 'Peppermint Patty' scent! Wonderful flavoring for deserts or to pop in a glass of water. H 18-24"

'Peppermint' A powerful peppermint flavor and aroma. Contains menthol, which is used medically as a digestive aid. H 8-15".

spicata 'Kentucky Colonel' (Spearment) A larger green leaved variety with extra strong flavor. H 2-3'

villosa 'Mojito Cocktail' This is the true mint used in Mojitos; it's more mild in flavor and scent than some other mints. H 12-18"

OREGANO *origanum vulgare* A large and varied genus of aromatic, perennial herbs.

Oregano forms mounds of foliage covered with numerous flowers. Greek Oregano is the best for culinary purposes. The others may be used, but have a mild flavor. All are attractive garden plants. Grow in full sun and well-drained soil. Zone 4

'Golden Creeping' Forms a carpet of golden-yellow leaves. A nice ground cover or container plant. 6"

'Greek' The best culinary Oregano. Strong flavored, dark green leaves and white flowers. 18"

'Hot N Spicy' [NEW] 'Hot and Spicy' is noted for its pungent, intense, spicy flavor. Use fresh or dried. H 12-18"

PARSLEY *petroselinum crispum* A biennial with nutrient rich, dark green leaves. Useful in cooking and as a breath freshener. Full sun to part shade, average soil.

'Darki' (Curly Leaf) Decorative, curly leaves with mild flavor. 8-12"

'Peione' (Italian Flat Leafed) Flat leaves with strong flavor. Best parsley for drying. 1'

ROSEMARY *rosmarinus officinalis* A tender perennial (Zones 7-9), evergreen, shrubby herb with needle-like foliage. Rosemary is a popular culinary herb, use fresh, frozen or dried. Prefers full sun and well-drained, alkaline soil. Drought and heat tolerant. Rosemary is tender in our climate so overwinter indoors in a cool but sunny location. If growing in containers, use a porous soil mix and do not over water.

'Tuscan Blue' Bushy, upright and spreading. Large leaf; bright lavender-blue flowers. 3'

SAGE *salvia* A perennial with hairy, aromatic foliage and attractive, edible, blue flowers. Prefers full sun and well-drained soil kept on the dry side. Pretty enough for decorating the herb or annual garden, or in combination planters.

apiana 'White' Used to make smudge sticks in Native American ceremonies. Bushy plants with thick stems & dusty gray-green foliage. Can be used medicinally, as incense, and is great for bee and wildlife forage. Tender perennial, 16-36"

elegans Also described as 'Hummingbird Highway', native to Mexico, these pineapple sages have both aromatic and culinary uses. Tender perennial.

'Honeydew' Melon scented, heart shaped leaves on shorter stockier plant than Pineapple Sage. Earlier flowering in the same intense scarlet flowers. Hummingbird Magnet! 2-3'

'Pineapple Golden Delicious' A bright golden yellow leaved variety of Pineapple sage.

Herbs

These golden leaves set off the intensely colored red flowers which appear in late summer. 2'

officinalis These are small perennial evergreen subshrubs with woody stems grown for centuries for its food and healing properties. Also beautiful as an ornamental plant.

'Berggarten' A popular culinary sage with large, dark and wide leaves. 2'

'Extrackta' (Common) A culinary sage with narrow, green grey leaves and lovely blue flowers. Also used in fresh and dried flower arranging. 16-24"

'Golden' Very attractive! Variegated gold and green foliage. H 18"

'Purpurascens' (Purple) The purple foliage of this sage intensifies in cooler weather. 2'

SAVORY SUMMER *satureja hortensis* Bushy plants with upright stems lined with pairs of narrow, aromatic, peppery-thyme flavored leaves. It is a characteristic ingredient of "herbes de Provence", a standard mixture of dried herbs sold in most French food stores. It is also widely used as a seasoning for grilled meats and barbecues, as well as in stews and sauces. Good container plant. Grow in full sun and well-drained soil. Annual, 12-18"

STEVIA *rebaudiana* (Sweetleaf) The edible leaves are many times sweeter than sugar. Grows faster in hot weather. Small, white flowers in tight clusters. H 36"

TARRAGON FRENCH *artemesia dracunculus* Upright stems lined with aromatic, narrow, dark, shiny leaves. The sweet anise flavor makes this cultivar the best for culinary use. Particularly good with shell fish, fish, chicken and turkey. Full to partial shade and rich, well-drained soil. Perennial, 24-36"

THYME *thymus* Thyme is one of the best known and most widely used culinary herbs. It is quite easy to grow and is commonly found as a decorative as well as functional plant in many gardens. Thyme prefers full sun to partial shade and light, dry, well drained soil. Perennial.

citriodorus Many have mounding foliage, are edible and are very fragrant. Also, said to be deer resistant. If you would like to landscape with edible plants, these are a few to consider.

'Bertram Anderson' Compact, spreading with oval, fragrant, bright golden leaves.

Broad lemon scented leaves, it has small pink flowers in the summer. Very hardy. Can be used in teas. H 8-12", Zones 4-9

'Lemon Golden Upright' Intensely lemon scented foliage is green with gold variegation and a bushy upright habit. It has lovely lavender flowers, very decorative, and used in culinary ways. Not winter hardy. 6-10". Zone 6-8

'Mayfair' (lemon) A vigorous, low-growing lemon thyme that forms a dense carpet of lemon-scented foliage. Produces mauve blooms in late spring. .25-.5'H x .25-1'W. Zone 4-9

'Silver King' Brightest variegation of any white and green thyme. Lemon scented leaves. Pink flowers. Upright, yet slightly lax plant. Lovely in containers. 4", Zone 5-9

doerfleri 'Pink Ripple' Grown for its highly fragrant lemon scent. This plant has light green foliage covered with large upright flower-heads the color of cotton candy, early to mid summer. 4-6" tall, often used as a groundcover. Zones 5-9

praecox The meaning of praecox is "very early". The following thymes will bloom early in the gardening season! All will make exceptional ground covers, for between pavers and edging.

'Albiflorous' (White Moss) Soft aromatic creeping foliage is covered with white flowers creating a snow-like effect in early summer. Plant near paving stones or pathways with light foot traffic. 2" Zones 5-8

coccineus (Creeping Red Flowered) A mat forming variety with tight, dark green

Herbs

foliage and tiny, dark rose flowers. Great for use between stepping stones. 2-4" Zones 4-8

'Highland Cream' A unique creeping thyme with bright cream and gold foliage with a touch of green in the middle. White to soft pink blooms in the summer. Likes good drainage. H 2-4"

'Minus' Dense, very low growing, dark green foliage. Superb among rock walls and walkways. Lavender pink flowers. 1" Zones 5-8

'Nutmeg' Fast growing, great between stepping stones- strong spicy nutmeg aroma with a milder flavor. Small purple flowers in the Spring. H 2-4" x 12" W, Zone 5

pseudolanginosus 'Wooly' Low growing "wooly mats" of silvery foliage on thin stems with rosy pink blooms. Needs good drainage. Great for pathways. 2" Zones 5-9

serpyllum These varieties are low growing plants with tiny leaves, showing a fine texture. Creeping groundcovers native to Europe. Many thrive in hot, dry conditions.

'Elfin' Slow and flat growing, creeping groundcover reaches 1 inch tall and 6 to 10 inches wide. Super miniature silver-green foliage provides an interesting texture. Has tiny pink flowers in summer. Zone 4-9

'Magic Carpet' A low maintenance lawn alternative! This thyme forms a low 'carpet' of delicious lemon scented dark green leaves smothered in pink flowers from early spring through midsummer. Grows rapidly. 2" Zones 4-8

unclassified 'Dot Wells Upright' A fast spreading bush -type thyme with lavender flowers. A popular culinary thyme, it is very hardy and has excellent flavor. 12" Zones 5-9

vulgaris The most common type of thymes.

'English' Grey-green leaves and mauve flowers on an upright plant. Very Flavorful! Best variety for culinary use. Tender perennial. 12-18"

'Wedgewood' Wedgwood Thyme is another larger leaved English-style thyme. Aromatic, semi-upright herb has small green leaves with chartreuse streaks and lavender flowers. Ideal for ground cover, edging or rock gardens. It also has culinary and medicinal uses. 11-12", Zone 5-9

ARTICHOKE 'Imperial Star' Firm, succulent fruit with mild, sweet flavor in late summer. Typically 6-8 mature buds are 3-4" in diameter. 85 days

ARUGULA 'Astro' Grown for its serrated or cut leaf type and its high yields. The slow-bolting, vigorous plants can be cut at the baby or mature stage. Astro has a distinctly nutty flavor and attractive medium green color. 38 days

BROCCOLI 'Green Magic' Summer-to-Fall broccoli has semi-domed, tight heads with medium-small beads. Widely adaptable. 57 days

BRUSSEL SPROUTS 'Jade Cross' Vigorous, extra-early, produces 1" sprouts with excellent flavor. Tolerates heat. 90 days

CABBAGE The only easily stored green vegetable. Delicious and nutritious. A very good source of dietary fiber, vitamins A, C, B6 and potassium.

'Primo Vantage' (F1) Green heads avg. 4-4 1/2 lb., have a very short core, and are very juicy, tender, and sweet. High resistance to fusarium yellows. 73 days

'Ruby Ball' Firm, 6-8 inch round heads have a mild, sweet flavor and weigh a manageable 3-4 pounds. We have seen Ruby Ball stand unfazed in the garden for 6 weeks without splitting. 78 days

CAULIFLOWER 'Snow Crown' (F1) Very vigorous, producing pure white, smooth, 2 lb. heads. Leaves grow upright, protecting heads from scorch. Widely adapted and performs well

Vegetables

in temperatures up to 90 degrees f. 60 days

CELERY 'Tango' Each smooth stalk of this early, productive celery is especially tender, sweet, and never stringy. Cut individual stalks for an extended harvest. 80 days

COLLARDS 'Top Bunch' (F1) A leafy green vegetable in the same family as cabbage, kale and broccoli. Many health benefits including cancer preventive properties, cholesterol lowering ability and antioxidant benefits. An excellent source of vitamins C, A, E and Manganese. Expect a crop of hardy, upright plants packed with slightly savoyed, thick, blue-green leaves. 'Top Bunch' stands out for flavor and high ratio of blade to stalk. Plants eagerly regrow. H 20-25", 50 days

CUCUMBERS Warm temperatures and well-drained soil are essential for good growth. Some added lime is appreciated.

'Burpless Diva' A fantastic tasting AAS winner, 'Diva' is distinctly tender, crisp, sweet, bitter-free, and virtually seedless. Looks like a regular salad cucumber but with a much smoother, thin, no-peel skin. Does not require pollination to set fruit. Disease tolerant. 58 days.

'Gateway' (Slicing) A long, dark green, 8.5 to 9 inch, delicious cucumber that stands up to downy mildew and other diseases better than other slicers. Gateway's disease resistance package is unbeatable. 55 days

'Pickling Little Leaf' This high-yielding variety has distinctive bright emerald green fruit for salads and pickling. Short, space saving vines and small leaves provide easy visibility for harvesting. Pick fruits at a small size to maintain good color and shape. 57 days.

'Poniente' (English) Poniente offers a strong resistance package and produces uniform dark green fruit that are 12-13 in. long and nicely ribbed. The plant habit is vigorous with a dependable fruit set, 1-2 fruit per node, and early maturity. 56 days

EGGPLANT Native to India and the Far East, plant when night temperature reach 55-60.

'Nadia' (F1) Traditional black Italian type. Uniform, 7-8" long by 3-4" diameter, dark purple fruits are glossy and blemish free. Tall, sturdy plants can set fruit under cool conditions. 67 days

'Orient Express' Outstanding early productivity. Attractive, slender 8-10", glossy black fruits in the long Oriental style. Tender, delicately flavored, and quick cooking. 58 days.

KALE brassica oleracea Very nutritious and beautiful in the garden. High in Vitamin A, C, and thiamine. 50-65 days

'Lacinato' (Dinosaur) An Italian heirloom that dates back to the 18th century. Blue green strap like leaves are 3" wide by 10-18" long with heavily savoyed edges. Excellent flavor that is enhanced by frost. Best eaten when leaves are small and tender. 62 days from transplant.

'Mix' Sold in mixed packs of three tasty varieties: 'Lacinato', 'Red Russian' and 'Winterbor'. 30 days for baby, 65 days to mature.

'Prizm' Tender bite, nutty flavor. Densely packed plants loaded up with short, tightly-ruffled, deep-green leaves with nearly stemless stalks. Grows well in window boxes or pots on your patio. 40 days

'Red Russian' A cold hardy delicate flavorful variety of Kale. Its leaves are frilly and oak leaved in shape and red veined greenish purple in color. Enjoy in fresh salads, steamed, stir fried alone or with other veggies. 25 days baby, 50 days mature.

LEEKS 'American Flag' An easy to grow, mild flavored variety producing 10" long tasty leeks. Superior quality and flavor. Use in soups, stews and salads. Prefer well drained limed soil, rich in organic matter. 95 days

Vegetables

LETTUCE Lettuce is hardy and can be planted as early as the soil can be worked. It is a cool season crop and makes its best growth when temperatures are between 60-65 degrees. Plant every 3 weeks for a continuous supply. Careful variety selection is important for hot weather crops.

butterhead-boston-bib Highest eating quality. Large ruffly outer leaves surrounding a soft, folded, and blanched heart.

'Adriana' (green) Heat tolerant, dark green butterhead. Heads are full and dense with good flavor. Good disease resistance and tolerance to bolting and tip burn. 48 days

'Skyphos' (red) Most adaptable butterhead. Beautiful, large, dark red heads with nicely contrasting green centers. Excellent flavor and texture. High resistance to downy mildew. 47 days

iceberg 'Great Lakes' Adaptable iceberg. Medium sized, glossy green, firm heads. White interior, juicy and mild. 75 days

leaf lettuce types Easiest to grow. The heads of this type do not close tightly, but form an open rosette. You pick as needed for salad without harvesting the whole plant.

'All Star Gourmet' A mix of different colors and interesting textures. Good shelf life. Very popular mix! 28 days

'Grazion' [NEW] A slow-bolting green leaf with heads of dark green leaves with wavy margins. An updated disease resistance package, darker leaves, and heavier heads than Starfighter, which it replaces. 52 days to maturity

'New Red Fire' (red) Large loose heads are green at the base and dark red at the ruffled edges. Suitable for both cool and warm conditions and retains its crisp fresh flavor throughout the season. 55 days to full size.

romaine The leaves are thick, crisp and juicy with sweetness unmatched by other lettuce types.

'Red Rosie' (red) Attractive, light red romaine. 'Red Rosie' has an upright habit. The leaves are red more than half way down and then fade to green, creating a unique 'half and half' look. Resistant to downy mildew. 56 Days

'Salvius' (green) [NEW] Bolt tolerant and widely adaptable. Medium green, upright plants. Open habit makes it more suitable for heads. Good flavor with a crisp texture. 58 days to maturity

summer crisp Easy to grow, relatively heat tolerant and harvestable from baby to full size.

'Magenta' (red) Shiny slightly puckered, red tinged leaves form a whorled conical head with a crispy heart. Ideal for spring and summer planting with good taste and tolerance to disease. 48 days

'Muir' (green) Extremely heat tolerant variety and very slow to bolt. The light green, extra wavy leaves form dense heads at a small size and can be harvested as minis or left to harvest as larger, heavier heads. The leaves are crisp and have excellent flavor. 45 days

MELONS Southern exposure and sweet, light, well drained soil is ideal for growing melons. You'll know when they are ripe when skin color begins to 'warm' and the fruit slips easily from the vine.

cantaloupe 'Sarahs Choice' Sweet and juicy! Its flavor, combined with its attractive oval fruits and ideal 3-lb. size, make this a great choice to grow. 76 days

watermelon 'Sugar Baby' The standard of small watermelons. Round 6-8" fruits average 8-10 lbs. Ripe melons are almost black and have great flavor and crack resistant rinds. 76 days

MESCLUN 'Mix' The term Mesclun comes from the french word meaning a mix of tender

Vegetables

young salad greens. A great balance of color, texture and flavor. Very nutritious and delicious! Cut the young greens early while they are still nice and tender, they are meant to harvest young, then the greens will grow again for a continuous supply. Harvest every 3 weeks.

OKRA 'Jambalaya' A super quick, very productive and delicious variety. This compact plant has meaty, light green pods that are 4-5" long and tapered. Use in soups, stews, casseroles or fry it whole for a new taste sensation. An attractive ornamental also. 50 days

ONIONS Any fertile, well-drained, loose soil in full sun will produce healthy bulbs.

allium cepa 'Green Banner' (Bunching) Bunching onion does not form a real bulb.

Vigorous, early maturing variety that produces high quality bunches. Tops are strong and very dark green. Outstanding performer in spring and fall plantings.

'Red Carpet' (red) [NEW] Magnificent magenta interior rings make this an especially gorgeous red onion. Tight, 3-4", bulbs that store extremely well. 115 days

'Yellow Sweet Spanish' Mildly flavored, early, medium-large onions with long storage capability. 115 days

PAC CHOI 'Mix' Quick growing, cool season green, luscious crisp stems. Can be grown as a baby leaf, or left to mature with thick succulent stems. Slow to bolt. Rich in vitamins A, C, Folate, Calcium and Iron, with antioxidant benefits. 3 complementary varieties included in this mix. 45 days

PEPPERS There are two major classes of peppers; hot and sweet. They require well drained, fertile soil with abundant amounts of phosphorus and calcium to do best, they also like even temperature and warm nights for good fruiting.

HOT 'Spicy food is a delicious treat especially if you are into heat', usually that spice comes from some sort of pepper. Peppers come in all sorts of sizes, shapes, colors and varying degrees of heat. We've ranked the taste of our hot peppers from mildly hot (1) to hottest (5).

ANAHEIM Early maturity, huge yields of large, flat, smooth, thick walled and pungent fruits up to 9" long. Turning from light green to red when mature. 74-76 days. Heat Index 1.

ANCHO-POBLANO 'Trident F1' These plants produce high yields of extra large 5" long by 2 1/2" wide fruits. Mildly hot, they turn from glossy black-green color to a red brick color. Suited for multiple harvests where it has the ability to maintain fruit size. Excellent for making chili powder, sauces, roasting and the classic Mole sauce. 80-85 days. Heat Index 2

CHILI PEPPER 'Cayenne Long Red Thin' A fiery hot pepper with great flavor. Plant bears long, red fruits that are often curled, no thicker than a pencil, 5" long and 1/2" thick. Fruits turn from dark green to bright red when mature. Especially good for pickles, hot sauces and drying. Wonderful in chili and salsas. 72 days. Heat Index of 2

CHILI PEPPER 'Super Chili' Plants produce high yields of 1 1/2" long by 1/2" wide peppers. They grow upright in clusters, are VERY HOT, and turn from light green to red when mature. Plants produce 3X as many peppers as regular chili peppers. 75 days. Heat Index 5

HABANERO 'Burning Bush F1' Wrinkled, lantern shaped 'Chichen Itza'-type peppers are produced on early maturing, sturdy and productive plants. Matures 15 to 25 days earlier than other habaneros. Green to mature orange in color. 3x1-1/2", 85 days. Heat Index 4

JALAPENO 'Jalapeno M' A very early maturing hot jalapeno, compact plants with sturdy branches produce many small green peppers that will slowly turn to red as the fruit

Vegetables

matures. They are hottest when they are red ripe. The short, sausage shaped, blunt fruits are 2-3"x1", are thick walled and juicy. Use fresh, pickled or in sauces. 60 days green, 83 days red . Heat Index of 2

SERRANO 'Serrano' Serrano is a type of chili pepper that originated in Mexico. They have thin walls and don't need to be peeled or steamed before using making it the easiest chili to use in salsa. Green in color and ripens to red, orange or yellow, 1-2" long by 1/2" wide. It is said that these chilies are 5X hotter than jalapenos. 85-90 days. Heat Index 3

SWEET BELL Colorful, crisp and sweet, bell peppers are one of the most nutrient and antioxidant packed vegetable there is; full of vitamins C, A, E, B6 and six carotenoids. At only 28 calories for one cup, you don't have to be afraid to indulge. Peppers are most nutritious when fully ripened.

'Better Belle 111' Andy's favorite! An extra early pepper. It produces very high yields of medium to large fruits. Very strong branching plants with good leaf cover. When fully ripe these peppers will turn red. 66 days green

'Golden California Wonder' Amazing bright yellow peppers. Sweet, juicy and tasty! Mild and delicious, these peppers are 3 3/4" long and 3 1/2" wide. Peppers turn from an emerald green to a terrific golden color. Great for stuffing, stir-fry and fresh in salads. An open pollinated, Heirloom variety dating back to the 1920's. 72 days.

'Jungle Parrot' Sweet and delicious this adorable, beak-like pepper's small size (2-3") and high yield makes it perfect for large patio tubs. Attractive, 2', inverted-pyramid plants make 'Jungle Parrot' the perfect picking patio pepper. Kids will love them. 75-85 days

'Orange Blaze' Very sweet, early to mature and did we mention ORANGE? Intense high impact orange that electrifies salads and stir fries. Gourmet style lobed fruits are 3 to 4 inches long and 1 1/2 inches wide. Flavor and color peak at the same time. 65 to 70 days

'Red Beauty' King of the Red Bells! Also known as 'Red Baron', this variety is mature relatively early in the season with excellent red qualities. Smooth, blocky, thick fleshed fruits are medium large (4x3.5") and plentiful. Good for eating fresh, roasting and stuffing. green to red in 70-72 days

SWEET SPECIALTY Not the traditional blocky bell shape, but just as tasty. Also, equally nutritious as the Bell types. These varieties resemble the old fashioned frying pepper.

CUBANELLE (Italian Frying) Early, productive Cubanelle. 6" x 2 1/4", cylindrical fruits famous for frying. Unripe color is pale green. 65-70 days

ITALIAN 'Carmen' An Italian variety bred especially for roasting and grilling. The walls are thinner with lower water content, making the sweet flavor more concentrated. Horn shaped 6" x 2 1/2" tapering to a point. Green maturing to a dark crimson red. 80 days from transplant

PUMPKIN 'Magic Lantern' Space-saving, semi-bush plants grow globed shaped, dark orange fruits (ave. 16-24 pounds), are slightly taller than wide with strongly attached handles. Intermediate resistance to Powdery Mildew keeps plants healthy. 100-110 days

SPINACH 'Space' (f1) [NEW] Tried and true variety for all seasons. Medium-dark green leaves are upright and smooth to slightly savoyed. High resistance to downy mildew. 25 to maturity

SQUASH A versatile, popular fruit that can be prepared many different ways; raw, sautéed, grilled, steamed, broiled, boiled and fried. It is low in calories and high in nutrients and antioxidants.

summer Summer Squash of all types should be harvested when fruits are immature and rinds

Vegetables

are soft.

'Green Machine' (Zucchini) [NEW] Uniform, medium green with light flecking. Open plant habit with high yields of straight, 7-8" fruits. An excellent disease package keeps the plants healthy and producing for a full season harvest. 45 days

'Multipak' (Yellow Zucchini) Produces a bumper crop of handsome straight neck fruits.

Vigorous bush plants, pick often for best yield. 50 days.

winter 'Early Butternut' One of the earliest varieties available, this squash is tan colored and averages 2½-3½ lbs. The flesh is smooth textured and has a delicious sweet, nutty flavor and is high in vitamins. A smaller variety with excellent flavor and powdery mildew resistance. One of the best keepers. Winter Squash should be left on the vine until the fruit is fully mature and the rind is hard and tough. 85-90 days.

SWISS CHARD 'Bright Lights' A delicious green with a distinctive mild flavor. Vitamin rich, filled with nutrition! A very colorful veggie with endless ornamental possibilities, stems of gold, pink, orange, purple, red and white with bright and pastel variations. A must try! 28 days baby, 55 days bunching. Cool and mild weather is preferred, although chard has some heat tolerance.

TOMATILLO 'Super Verde' Extra large fruits are firm, 2-1/2 ounces each, have strong husks and above average shelf life. Sturdy plants have excellent vigor, cover and fruit set. Indeterminate. Easy to cook, use in fresh salsa, chili and tacos. 75 days

TOMATOES Disease Tolerance:EB=Early Blight, LB=Late Blight, V=Verticillium, F=Fusarium Wilt Race 1, F1 & 2=Fusarium Wilt Race 1 and Race 2, N = Nematodes, T = Tobacco Mosaic virus. Growth Habit: I = Indeterminate (pole or stake, fruit ripens throughout the summer); D = Determinate (bush, fruit ripens all at the same time)

CHERRY A small variety of garden tomato, it has been cultivated since the early 1800's. Popular in salads or as a snack. Very sweet.

'Matts Wild Cherry' The wild tomato with luscious taste! These small tomatoes are packed with more taste than you can believe. Multitudes of 5/8 to 3/4" deep red round fruits, smooth texture and lots of sweet flavor. Fantastic in salsa! An heirloom. 60 days, some resistance to EB & LB. (I)

'Midnight Snack' 2017 All-America Selections Edible-Vegetable Winner. Unique indigo-type cherry tomato ripens to red with beautiful glossy black-purple overlay when exposed to sunlight. Coloration comes from the accumulation of anthocyanin pigments; same reason blueberries are blue and contain healthy antioxidants. Indeterminate. 65-70 days from transplant.

'Sun Gold' (F1) 'Garden Candy' Intense fruity flavor! Exceptionally sweet bright tangerine-orange cherry tomato leaves us craving for more! Vigorous plants start yielding early and bear right through the season. The taste can't be beat! 65 days (FTMV) (I)

'Sweet 100' (F1) This tomato variety is true to its name! Plants are loaded with supersweet fruits. 65 days (FV)(I)

GRAPE 'Fantastico' (F1) 'Fantastico' is a must for anyone looking for an early maturing, high yielding grape tomato, with built-in Late Blight Resistance. Bred for small gardens, determinate 'Fantastico' will work great in containers as well as the veggie garden. Long clusters of fruits are held toward the outside of the plant for easy harvest and are crack resistant. A unique determinate bush tomato with well flavored half ounce fruits, high yielding, producing up to 12 lbs of ripe fruit. 50 days

HEIRLOOM An heirloom tomato is generally considered a tomato variety that has been passed down through several generations because of its valued characteristics.

Vegetables

'Brandywine' One of the best tasting tomatoes! Large fruits often over 1 lb., have a deep pink skin and smooth red flesh. A medium tall, potato-leaf plant is best staked. Flavor has been described as 'Very rich, loud and distinctively spicy'. An Amish heirloom 80-100 days (I)

'Prudens Purple' Large to very large (Many over 1 lb.) fruits are flattened and smooth and resist cracking. Vivid, dark, pink skin with crimson flesh. Contains only a few seeds. Medium tall potato-leaf plants. 72 days (I)

'Rainbow Blend' Eleven popular heirloom varieties in a range of fruit colors, shapes and sizes. Includes 'Aunt Ruby's German Green', 'Black Krim', 'Black Prince', 'Big Rainbow'(Bi-Color), 'Brandywine'(Red), 'Cherokee Purple', 'Kelloggs Breakfast'(Orange), 'Midnight Snack'(Purple), 'Mortgage Lifter' (Pink), 'Yellow Brandywine', and 'Great White'. 80-100 days, assorted sizes

PASTE -SAUCE 'Plum Regal' (F1) A productive plum tomato with great late blight resistance. Medium-size plants produce high yields of blocky, 4 oz. plum tomatoes. Fruits have a deep red color with good flavor. Good disease resistance package. Intermediate resistance to early blight. Determinate, 75 days, (EB, LB, V, F, T). Typically meatier and less juicy, these are the best choice for canning, sauces, salsas and juice. With less juice, sauce making time is half that of salad types and with higher solids the flavor is doubled.

PATIO 'Bush Champion 11' (F1) One of the best varieties for small space gardens and containers. Compact plants grow to just 24" tall, producing extra-early yields of big 8-12oz. fruits with excellent flavor. Widely adaptable, can be grown stalked, but not essential. Resists Grey Leaf spot and Alternaria. Determinate (V, F1, F2)

SALAD-SLICING Slicing Tomatoes are large round varieties which hold more juice and seeds. Perfect for eating raw in a wide variety of ways.

'Big Boy' (F1) Vigorous plants producing 16 oz. fruits! Excellent yields. 78 days (I)

'Brandyboy' This is one of the tastiest tomatoes you can grow! A hybrid of the classic Brandywine, Brandyboy has the benefits of a heirloom-incredible taste, smooth and thin skin-without the drawbacks. Producing loads of large, 5-in.(7-10 oz.) pink fruits. 78 days. (VFNT-I)

'Damsel F1' Late blight resistant and heirloom quality flavor. Damsel produces avg. 10-12 oz., globe-shaped fruits with beautiful, pink skin. Compact indeterminate. 73 days

'Defiant' (F1) Bred for both disease resistance and flavor. This mid-sized slicer has high resistance to late blight and intermediate resistance to early blight combined with great flavor. The 6-8 oz., globe shaped fruit are smooth, firm with good texture. High yielding medium sized plants are very adaptable. 70 days, (AB, F2, LB, V) Determinate

'Early Girl Improved' (F1) Early slicing cultivar. Tasty 4-6 oz. fruit that continue all summer! High yields 57 days (VF1&2, I)

'Fourth of July' Be the first on your block to have fresh tomatoes! One of the earliest-producing varieties available, yielding small luscious fruits until late summer or early fall. 4 oz. fruits. 49 days. (I)

'Jet Star' (F1) Early producing 6-8 oz. pure red fruits with great flavor. Best Seller! High yields all season long. 70 days (VF1&2T, I)

'Mountain Merit' (F1) A Late Blight Resistant Slicer! This is a medium-large, 8-10 oz., red slicer with one of the best disease packages around for a variety of field conditions. 75 days, (F3, LB, N, TSWV) Determinate

'Oh Happy Day' (F1) A new concept in tomatoes with an incredible disease-resistance package! Produces an outstanding crop of beefsteak tomatoes in clusters of 3 to 7 fruit, with a flavor that's top notch! These tasty beefsteaks are quick to harvest, too, as they

Vegetables

snap off easily from the stem. Indeterminate. 65 days (V,F,EB,LB)

'Stellar F1' A great tomato for those in areas with high disease pressure. Compact plants have the highest level of resistance to late blight and Septoria Leaf Spot currently available in a tomato. Produces loads of round, red 5 to 7 ounce fruits that make perfect slices for sandwiches and salads. Good for container gardens, but truly exceptional when planted in the ground. Determinate. 70-75 days. VFFLB

'Supersteak' (F1) Big improved beefsteak type. Rich, full flavor. Vigorous plants. 80 days (VFN) (I)

YELLOW 'Lemon Boy' Colored eye catching tomato with a wonderful flavor. This will produce a medium sized fruit 7 to 8 oz.with sunny yellow skin. If you are looking for a tomato with a lower acid content this would be the one. High yields. 72 days (VF1&2N,I)
